

APPLICANTS FOR THE MA IN FILM AND TELEVISION STUDIES

All applicants are asked a standard set of questions. We would be grateful if you could respond briefly (a few paragraphs at most) to each of the questions listed below. You may already have answered some of these questions elsewhere in your application, but it helps us if you would answer them here anyway.

1. What do you hope to gain from the MA in Film and Television Studies programme?
2. What previous experience do you have in film and television studies/or related discipline?
3. What subjects interest you for exploration in a dissertation?
4. What can you bring to group discussion and/or projects?
5. What do you think are some of the most interesting/urgent questions facing film production today?
