

## **Core Subject CPD for Dental Care Professionals**

The Deanery is not specifically funded to provide core training for DCPs'. In order to assist in the delivery of core subject training to the 5,000 DCP's in the region, we have trained the people listed below who can be hired to deliver the training for **practice decontamination supervisors**, and update for staff on **ionising radiation** ( those who are not qualified to take radiograph's) to comply with current regulations.

They can be hired either by practices, groups of practices, or PCTs to deliver courses, please contact the trainer direct.

### **Infection Control/Decontamination Trainers**
