Your comments and views are important

The scheme is not yet finalised and we welcome your feedback to help shape the emerging proposals. Feedback from this exhibition will inform the work of the masterplanning team as they prepare more detailed proposals, prior to submission of an outline planning application to North Somerset Council in November 2009. This will be followed by the start of the formal planning process which will be subject to further consultation and discussion.

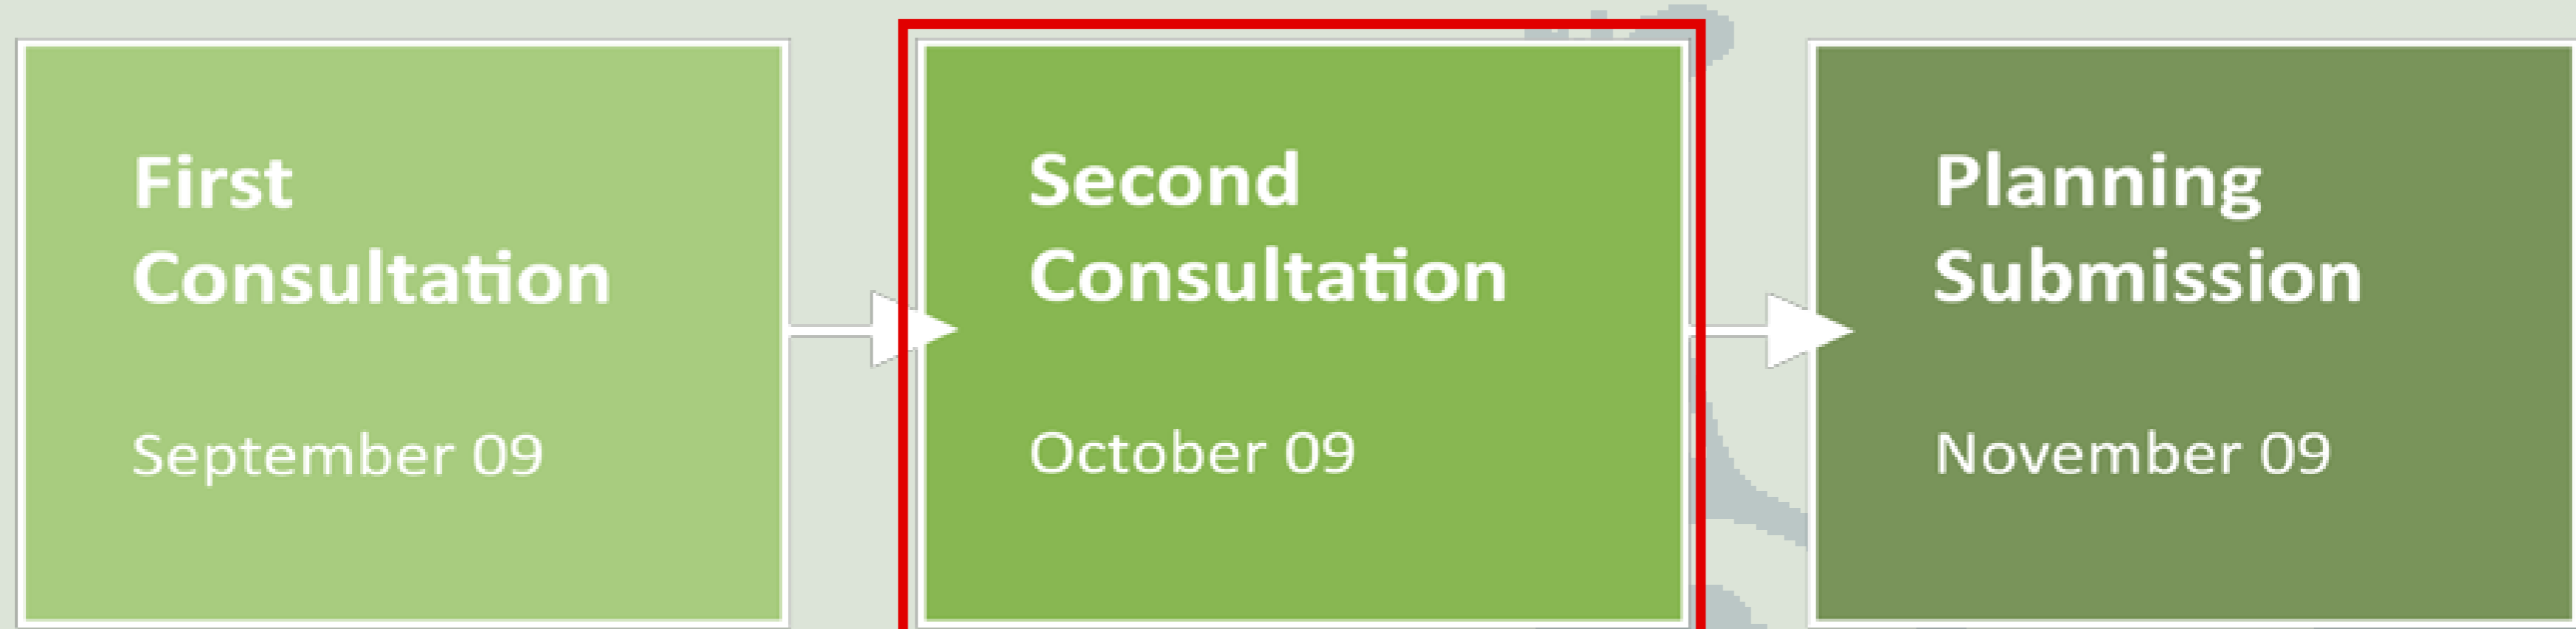

Where to send your feedback:

If you leave contact details at the exhibition we will ensure you are kept informed about the progress of this project.
