

12 Next steps

Your comments and views are important

Your comments and views will be important in helping to shape the emerging proposals and will be carefully considered by the University and its design team as they proceed to draw up more detailed proposals.

If you leave contact details at the exhibition we will make sure you are kept informed about the progress of this project.

What happens next:

Feedback from this exhibition will inform the work of the masterplanning team as they work up more detailed proposals.

A further round of public consultation will take place in October 2009 when once again feedback will be sought on the development proposals, prior to submission of an outline planning application to North Somerset Council in November 2009. This will be followed by the start of the formal planning process which will be subject to further consultation and discussion.

If you have any queries about this exhibition or the consultation process please contact:

ABC, consultation co-ordinator
