

Bristol Anatomy Refresher course

23-27 June 2014, £335

A one-week hands-on, practical anatomy course for undergraduate students using cadavers, models and prosections.

- A comprehensive tour of regional anatomy; thorax, abdomen & pelvis, upper and lower limbs, head & neck and neuroanatomy.
- Taught by doctors for clinical relevance.
- Utilising medical imaging alongside real-life anatomy.
- Designed for medical, dental, physiotherapy, chiropractic, osteopathy, radiography and sports therapy students.
- All attendees receive a course certificate.
