

Treatment now available for children with **CFS/ME**

1% of secondary school children miss 20% of school because of CFS/ME

Most will recover at 6 months with specialist treatment but less than 10% will recover without it

Specialist treatment is now available at home for teenagers aged 11 to 17 years with CFS/ME as part of a research study

Ask the child's GP to refer via 'Choose & Book' to:
PAEDIATRIC CFS/ME SERVICE

For information call: **01225 821340**

Before referral, the child will need:

- Confirmed **diagnosis** of CFS/ME
- Screening **bloods** (see NICE, 2007)

For study information visit: www.bristol.ac.uk/fitnet-nhs
