

Getting results out of MLwiN

Saving the worksheet

- ▶ What gets saved?
 - ▶ data
 - ▶ model
 - ▶ graph setup (have to click Apply again)
 - ▶ model comparison tables
- ▶ Could save each model in a different worksheet

File → Save worksheet
File → Save worksheet As...

Storing models

- ▶ Create a table containing results for various models
- ▶ Can view in MLwiN or copy & paste to Excel, Word,...
- ▶ To erase models use commands MERA or MWIP

Store button on Equations window (store)
Model → Compare stored models (view)
See Section 4 of Manual Supplement for v2.10

Taking screenshots

- ▶ Copies the active window - works with most windows
- ▶ Copies as picture (bitmap)
- ▶ Can paste into Paint, Word,...
- ▶ The only way to export graphs
- ▶ Also useful for record of model equation with results

Edit → Copy → Yes/No

Exporting data

- ▶ Save worksheet in Stata, SPSS or Minitab format
- ▶ Copy columns & paste into Excel etc

See the FAQ 'How do I get data out of MLwiN?'
