

### Memory problems video – how to access on Blackboard

Type in [www.ole.bris.ac.uk](http://www.ole.bris.ac.uk) into your browser and then follow the instructions below. Screenshots with arrows show you what to do but the explanation is:

- Sign in on the Guest login with username **med021** and password **primcare**
- Click on **Courses** on the menu on the left-hand side, and then type in **medi10007\_2023** in the search box that comes up
- Click on **medi10007\_2023**
- Click on **My/Replay** on the menu on the left-hand side, and then click on **MBChB General including Welcome Week, Effective Consulting and PPD**
- This brings up a list of videos. Click at the bottom of the screen to take you to later pages - **Memory problems** is the final video listed there, on page 4.

How to access memory problems video, 21/3/24

The screenshot shows the Blackboard 'Courses' page. On the left is a dark sidebar with navigation links: Home Page, COMP2 GPs, Activity Stream, Courses (highlighted), Organisations, Calendar, My Marks, Assist (with a 'NEW' badge), Tools, Log Out, and links for Privacy, Terms, and Accessibility. The main content area is titled 'Courses' and includes a 'Course Catalogue' link. Below this, there are filters for 'Non-SITS Courses' and 'All Courses'. A search bar contains the text 'medi10007\_2023'. To the right of the search bar is a 'Filter' button and a dropdown menu set to 'All Courses'. Further right is a '25 items per page' selector. Below the search bar, under the heading 'Assorted Dates', a search result is displayed: 'MEDI10007\_2023\_AYEAR', 'Year 1 MB ChB 2023', 'Original Course View'. Below this result are links for 'Open', 'Start now', 'Multiple Instructors', and 'More info'. A star icon and a three-dot menu are also visible. Two blue arrows originate from the text at the bottom of the image: one points to the search bar and the other points to the search result card.

Type in **medi1007\_2023**, then click on the course when it appears

The screenshot displays the Blackboard interface for the Bristol Medical School Year 1 MB ChB Medicine course. The browser address bar shows the URL: [https://www.ole.bris.ac.uk/ultra/courses/\\_255681\\_1/cl/outline](https://www.ole.bris.ac.uk/ultra/courses/_255681_1/cl/outline). The sidebar on the left contains a list of navigation links, with 'My Re/Play' highlighted by a blue arrow. The main content area features a header with the course title 'Bristol Medical School Year 1 MB ChB Medicine' and a banner image. Below the header, the 'Announcements' section displays a 'Weekly Bulletin: Friday 8 December' posted on Friday, 8 December 2023 at 15:12:33 GMT. The bulletin includes a 'Dear all' greeting, information about Manual Handling and HCA Induction Training, a reminder about the broken lift in the Wills Memorial Building, and a list of notices for the week. The notices include using University online services over the Winter break, finding study workspaces on campus, library updates, a student voice newsletter, a Black Bag release on 11 December, an invitation to participate in a research study on ADHD and autism (closing date 16 December), and a meeting with the GMC in January. The bulletin concludes with best wishes from Sarah and the year 1 team, a link to the MBChB Sharepoint Hub, and a section on using University online services over the Winter break and Multi-factor authentication (MFA). The MFA section advises students to take their MFA device with them if they will need to access University services, to check their MFA method is up to date before travel, and to collect a free security key (YubiKey) from the IT Counter in the Arts and Social Sciences Library. It also reminds students to update their MFA settings before switching off their old phone if possible. The final section, 'Finding study workspaces on campus', provides instructions on how to access on-site study spaces using the 'find a room service' and lists the current booking status over the next 3 hours. It also mentions that there are spaces and facilities across the campus to help with study, including library study spaces, blended learning spaces, or open-access computers that can be used.
