

“ORCID is a really simple and useful way of making sure publications are correctly attributed to their authors. Widespread adoption of ORCID will make it easier for us to get full recognition for our work, and it will also mean that the University can maximise the visibility of our research, re-using research information across many different systems and websites.”

Professor Mike Fraser, Chair of the Open Access Steering Group

The central graphic features the word "ORCID" in white, bold, sans-serif font inside a large, bright yellow-green circle. This central circle is surrounded by several other circles of varying sizes and shades of yellow and green. Each of these surrounding circles contains a white icon representing a different field of research or technology: a laptop, a beaker with a flame, a DNA double helix, an atom, a globe, a microscope, and a musical note. There are also some circles containing the letters "ABC".

ORCID

Connecting Research and Researchers

Accurate researcher attribution is a common problem. Names are not unique, they can be written in many different ways and they can change over time. ORCID addresses this problem by allocating each researcher a unique digital identifier. ORCID iDs are free, portable and are suitable for researchers at all career levels.

Using ORCID in THREE EASY STEPS

1

REGISTER

Get your unique iD via your Pure profile at bristol.ac.uk/orcid/pure-and-orcid or sign up on the ORCID website www.orcid.org

2

USE YOUR ORCID iD

Once you have an ORCID iD you need to use it. Add it to your Pure profile, include it on your CV and quote it when you submit publications or apply for grants with the Research Councils, NIHR, Wellcome Trust and other funders
bristol.ac.uk/orcid/#useorcid

3

ADD YOUR SCHOLARLY ACTIVITIES

Link your ORCID record to your other author profiles (e.g. Scopus, ResearcherID, ArXiv) or systems you use (e.g. Researchfish). Linking your record makes it easier to maintain your online lists of scholarly activities and increases the discoverability of your research
bristol.ac.uk/orcid/#useorcid

You can even link your Pure profile, so that your ORCID profile is updated when works are added to Pure
