SETsquared Business Acceleration is expert at working with new and experienced high-tech entrepreneurs to help them evaluate their high-growth business ideas.

We also provide general guidance on what it’s really like starting a new business - what the challenges are, the highs the lows and the personal qualities required. We have delivered interactive “Introduction to starting a high-tech business” presentations followed by individual, bespoke consultations with individuals or prospective teams to evaluate their specific ideas and capabilities.

Having worked with over 250 start-up businesses, raising over £200m in investment, we know, better than anyone, what is required in growing a business and we are committed to helping people make the right life choices.

- Group presentation of 1.5hrs, with 2 experts and including Q&A, at our premises or yours: “Introduction to running a high-tech business” - £300
- Initial bespoke consultations with 2 experts, to individuals or teams, to evaluate or explore business ideas - £150ph
- Subsequent coaching sessions to develop business ideas and/or explore personal career choices in the high-tech sector - £100ph
- “Pre-incubation” membership - £750 for 6 months including a desk, to fully evaluate a business idea
- References available on request. All prices + VAT.
