

Interdisciplinary Research & Antimicrobial Resistance Workshop

Pitch for collaborators

Project title / topic area:

Please give brief details of research question or topic area, likely methodological approach and any relevant resources (e.g. data, existing participants) and funder/target funder. Everything from early stage ideas to existing projects that you want to build on are welcome.

Existing team:

Please give indication of people, disciplines and institutions already involved (this may just be yourself if an early stage idea).

Collaborators sought:

Please give description of type of collaborators sought – this could be by discipline, area of expertise or experience.

Please note, the contents will be shared with other attendees at the workshop.
