## Journal

### Morning

I woke up at 9'oclock, had my breakfast and got ready to go into university. I left my halls and walked to the bus stop, which is about a 10 minute walk, usually I get the bus because from [MY] hall it is a 45 minute walk to the uni.

Walk to the bus stop.

I arrived at uni and went to my 11'oclock seminar which was down [ROAD]. It was a seminar for my Special Topic unit called [TOPIC]. [SECTION DELETED TO PROTECT ANONYMITY] At the end we were told that by next week we need to have a question and a plan ready for our Special Topic where we need to write a 3,000 work essay on a subject related to our Special Topic unit. After our seminar, which finished at 1'clock, I went to the library to research secondary literature on [TOPIC] and research areas that I could complete my Special Topic on.

### Afternoon

After I found the books I needed from the library I got the bus outside Hawthorns and went back to [MY HALL], I arrived back around half 3. When I arrived back at [MY HALL], I went to see my friends who were sitting in my friend's room. They were looking at holiday brochures as we have been thinking about going away during the summer. We have been looking at cheap holidays to beach resorts or festivals in Europe.

March 2011

At about 4.30 I went on a quick half hour jog, around the Downs. I like staying at [MY] Hall because it means we are only a couple of minutes away from the Downs which is great for jogging and going for walks with friends which we sometimes do on Sunday afternoons if the weather is nice.

### Evening

When I arrived back from my jog I showered and went to dinner. We had dinner about 5.45, we had pasties, potatoes and salad. We also had vanilla cupcakes for dessert which were really nice! The menu for [MY HALL] meals vary, overall the food is good and I'm glad I picked a

catered hall for my first year as it made the experience of moving away less stressful as we did not need to worry about cooking for ourselves, at least not for another year! Also having dinner in the dining hall allows us to socialise with friends, chat about our day and plans for the evening. Today we were planning our arrangements for the Barmy Bar Crawl. We brought our T-shirts for the Bar Crawl after dinner, which were being sold in the dining hall.

After dinner I went back to my room and finished off some notes from my lectures earlier on in the week.

I then started to get ready to go out with friends on my floor. Once we were ready we went to unit 9 to meet some other people that my friend knows. It was nice to meet other people from different units in [MY HALL]. We got the Ulink bus to white ladies road where the bar crawl started. It was really fun night and as part of RAG (Raising And Giving) it was for charity. The bar crawl ended at the club Syndicate, I preferred the bar crawl to the club because it was good to socialise with people.
