Parenting Sense of Competence Scale (Gibaud-Wallston & Wandersman, 1978)

Please rate the extent to which you agree or disagree with each of the following statements.

	Strongly Disagree 1	Somewhat Disagree 2	Disagree 3	Agree 4	Somev Agree 5		t		Strongly Agree 6		
	The problems of t how your actions			-		1	2	3	4	5	6
2.	Even though beir while my child is			am frustrated	l now	1	2	3	4	5	6
3.	I go to bed the sa accomplished a w		p in the mornin	ng, feeling I hav	ve not	1	2	3	4	5	6
4.	I do not know wh control, I feel mo				e in	1	2	3	4	5	6
5.	My mother was b	etter prepared to	o be a good mo	ther than I am	ı .	1	2	3	4	5	6
6.	I would make a fi learn what she w					1	2	3	4	5	6
7.	Being a parent is	manageable, and	l any problems	are easily solv	ed.	1	2	3	4	5	6
8.	A difficult problem doing a good job		nt is not knowi	ng whether yo	u're	1	2	3	4	5	6
	Sometimes I feel I meet by own portion my child.	_							4		6
11	. If anyone can fin the one.	d the answer to v	what is troublin	g my child, I aı	m	1	2	3	4	5	6
12	. My talents and in	nterests are in ot	her areas, not b	peing a parent.		1	2	3	4	5	6
13	. Considering how with this role.	long I've been a	mother, I feel t	horoughly fam	niliar	1	2	3	4	5	6
14	. If being a mothe motivated to do		•	esting, I would	d be	1	2	3	4	5	6
15	. I honestly believ to my child.	e I have all the sk	ills necessary to	o be a good mo	other	1	2	3	4	5	6
16	. Being a parent m	nakes me tense a	nd anxious.			1	2	3	4	5	6
17	. Being a good mo	ther is a reward	in itself.			1	2	3	4	5	6

Parent Sense of Competency Scale (PSOC)

Scoring Instructions

The Parenting Sense of Competency Scale (PSOC) was developed by Gibaud-Wallston as part of her PhD dissertation and presented at the American Psychological Association by Gibaud-Wallston and Wandersman in 1978. The PSOC is a 17 item scale, with 2 subscales. Each item is rated on a 6 point Likert scale anchored by 1 = "Strongly Disagree" and 6 = "Strongly Agree". Nine (9) items (#s 2, 3, 4, 5, 8, 9, 12, 14, and 16) on the PSOC are reverse coded.

Nine items on the PSOC are reverse coded, this is important for accurate scoring. Reverse coded means that a high score on the individual item is not indicative of having a sense of competency; essentially, the item is worded negatively.

Scoring Instructions:

To aid scoring, the score / number for each item can be written in the in the right hand margin of the questionnaire once completed.

For items 1, 6, 7, 10, 11, 13, 15, and 17 simply write the number the participant indicated as their choice.

Reverse coding: For items 2, 3, 4, 5, 8, 9, 12, 14, and 16 substitute the following numbers and write in right hand margin for totaling:

Answer	Score
6	1
5	2
4	3
3	4
2	5
1	6

Total all numbers you have written in the right hand margin; this is participants PSOC score.

A higher score indicates a higher parenting sense of competency. There are no average scores or 'cut-off's' for this tool.
