Sunday Times ‘Best Places to Live’ 2017
I am delighted that you are considering studying at the University of Bristol. Founded in 1876, Bristol is consistently ranked among the top universities in the world. Here you will find inspirational teaching, informed by globally relevant research, which both challenges and rewards.

We attract talented students and staff from more than 120 countries, making our University truly international. As part of our diverse and engaged community, you will learn from, and alongside, world-leading scholars. Our industry connections and leading degrees ensure Bristol graduates are targeted by top employers worldwide.

The Bristol tradition of academic rigour is enhanced by our pioneering spirit. During a time of global change the University is more ambitious than ever. In 2016 we launched Bristol Futures, an innovative programme that complements our degree courses. Designed in consultation with employers, alumni and students, it will help to equip you for tomorrow’s workplace and world.

The city of Bristol shares this forward-thinking nature. Situated 100 miles west of London, Bristol is home to a variety of religions, cultures and industries. Our 1,000-year-old city offers a rare mix of tradition and modern vibrancy.

I encourage you to explore this guide and our website to learn more. We look forward to welcoming you to the University of Bristol in the near future.

Professor Hugh Brady
Vice-Chancellor and President
1876
Bristol becomes the first higher education institution in the UK to admit men and women as equals.

1929
Former Prime Minister Sir Winston Churchill becomes University Chancellor.

1964
Sir Anthony Epstein, Emeritus Professor of Pathology, discovers the first cancer-causing virus, commonly known as Epstein-Barr.

1970
Professor Dorothy Hodgkin, the UK’s first female Nobel Laureate, is appointed Bristol’s fifth Chancellor.

1996
Nelson Mandela, civil rights revolutionary and former president of South Africa, receives an honorary degree.

2005
Queen Elizabeth II opens the Bristol Laboratory for Advanced Dynamic Engineering (BLADE), which works to prevent loss of life and income from aircraft crashes, petrochemical disasters and earthquake damage.

2008
Bristol scientists help to recreate the conditions after the Big Bang in CERN, Switzerland.

2010
The Mander & Mitchenson collection transfers to the University, making Bristol’s Theatre Collection one of the largest worldwide.

2015
Bristol’s business incubator partnership SETsquared is named best in the world by UBI Global.

2016
Alumni compete in the 2016 Rio Olympics, including sailing gold medallist Hannah Mills, pictured.

2005
Queen Elizabeth II opens the Bristol Laboratory for Advanced Dynamic Engineering (BLADE), which works to prevent loss of life and income from aircraft crashes, petrochemical disasters and earthquake damage.

2017
Bristol BioDesign (BBD) is founded to build on the University’s £70 million investment in synthetic biology.

Leading alumni

What do a TED fellow, an award-winning composer and a pharmaceutical entrepreneur have in common? They all studied at the University of Bristol.

Connections for life
When you graduate you will join our exclusive alumni network. Comprising more than 120,000 graduates and representing 170 countries, our alumni community offers a lifelong professional and social network.

The benefits start when you become a Bristol student, with inspirational alumni guest lectures, mentoring, internships and funding opportunities. After graduation you can attend networking events around the world, or connect with like-minded professionals through our private LinkedIn group.

Current alumni employers include:
• Arup
• Amazon
• Condé Nast
• Deloitte
• Dentons
• Google
• GSK
• HSBC
• Penguin Random House
• PAWC
• Rolls-Royce
• Sky

Nizar, Germany
(BSc Geology and Biology) Palaeontologist; TED fellow and comparative anatomist
Nizar spearheaded the discovery of the Spinosaurus – the largest predatory dinosaur to ever walk the earth. His work has been featured in National Geographic and The Wall Street Journal.

‘Studying at Bristol was the stepping stone that helped turn my passion into a career.’

Emi, Japan
(BSc Biochemistry; PhD Molecular Neuroscience) Marketing Manager, ReasonWhy Inc. and Founder of LIFE LLC; formerly Consultant, KPMG
Emi became a management consultant after graduating. Specialising in healthcare and pharmaceuticals, Emi’s expertise has seen her establish a new healthcare consultancy, fulfilling her aims as an entrepreneur.

‘My time at Bristol was very special. Both the University and the city have many charms and offer numerous invaluable opportunities. The experience at Bristol helped me mature, allowed me to shape my career the way I desired and to stand where I am today.’

Emi, Japan
(BSc Biochemistry; PhD Molecular Neuroscience) Marketing Manager, ReasonWhy Inc. and Founder of LIFE LLC; formerly Consultant, KPMG
Emi became a management consultant after graduating. Specialising in healthcare and pharmaceuticals, Emi’s expertise has seen her establish a new healthcare consultancy, fulfilling her aims as an entrepreneur.

‘I enjoyed the opportunity to collaborate and work with an international and highly creative community … What I learned from my MA and PhD has brought me to a higher level in my development as a film composer, classical guitar teacher and music researcher.’

Hans, Brazil
(MA Music Composition for Film and TV; PhD Musicology and Ethnomusicology) Composer for film; Senior Associate Teacher, University of Bristol
Hans’ compositions have been used in many feature films, TV sales and commercials, gaining multiple film award nominations and titles. Alongside his creative practice, Hans tutors Bristol students in classical guitar.

Careers start here

A University of Bristol degree is recognised worldwide – in fact we are among the top three UK universities targeted by major employers*.

Careers guidance
Our Careers Service will support you throughout your studies, whether you already have your career planned or are looking for inspiration. Our services are free while you study and for the first three years after you graduate. We offer expert advice, employer events, job-hunting resources and networking opportunities to help you make the most of your time at Bristol.

Employer introductions
Bristol’s Careers Service hosts one of the largest events programmes of any university, including employer presentations, networking events and careers fairs, which attract leading graduate recruiters. Each year, we host over 400 employer visits where recruiters share their knowledge, expertise and advice with students.

A number of events throughout the year are designed specifically for international students and graduates, and many of our visiting employers promote international positions.

Overseas opportunities
If you plan to return to your home country or travel after your studies, the Careers Service can help with your overseas job search. They offer information and advice on working abroad and subscribe to international job boards to ensure you find the best roles.

In recent years, we have hosted overseas careers fairs giving students graduate opportunities in their home countries. Past locations have included Shanghai and Beijing.

Internships
The University of Bristol Internship Scheme provides flexible, paid work experience opportunities to support your personal and professional development. We work with a wide range of organisations to offer roles in marketing, events, research, business development, IT and more.

Industry connections
The Faculty of Engineering enables you to connect with international employers relevant to your course through the Industrial Liaison Office (ILO). The ILO can provide industrial mentoring, employer-led lectures and overseas internships with major companies during the summer vacation.

The Professional Liaison Network (PLN) allows Social Sciences and Law students to engage with organisations through lectures, mentoring and an internship scheme that supports you to gain valuable work experience in your home country.

Bristol PLUS Award
The Bristol PLUS Award helps you to develop your employability and get recognition for achievements outside your degree, such as volunteering, work experience and involvement in societies and sport. Open to undergraduate and postgraduate students, the award is endorsed by many prestigious graduate recruiters including Zurich and PwC.

Connect with alumni
Our alumni have gone on to do amazing things in the UK and all over the world. Develop your connections by contacting other Bristol graduates through our Careers Network database. After graduation, overseas alumni events can help to further develop your professional network.

Future entrepreneurs
Students interested in starting their own business can get support through our dedicated Business Basecamp service, which provides development resources, mentoring, workshops and guest lectures from entrepreneurs.

*High Fliers Research 2017
Bristol is renowned for outstanding teaching and research. From foundation students to PhD candidates, everyone is supported to reach their potential.

Research-led teaching
As a member of the Russell Group, Bristol is one of the UK’s leading research universities. We ranked among the best in the UK in the most recent Research Excellence Framework assessment, indicating that our research has a major impact on society and the economy. Over 83 per cent of our research is rated ‘world leading’ or ‘internationally excellent’. Our ranking ensures we receive high levels of government investment. All our students benefit directly from our research. Leading academics deliver programmes across the University, allowing all students to experience research-led teaching.

World-class facilities
We continually invest in facilities and technology for our students. On campus you will find 24-hour libraries, extensive IT spaces and purpose-built study centres. Our faculties also benefit from significant investment. Recent developments include the £56.5 million Life Sciences building, opened by Sir David Attenborough, and the Centre for Nanoscience and Quantum Information – the quietest building in the world.

Personal tutor
Every taught student is assigned a personal tutor to meet on a regular basis. They can advise you on academic matters, provide personal support and guide you towards specialist services within the University.

Types of courses
At Bristol we offer over 200 undergraduate degree courses across six faculties, as well as a comprehensive range of postgraduate taught and research programmes. We also run pre-sessional and foundation English language courses. To find out more about the different options available, see page 44.

Flexible programmes
Many of our programmes provide a range of module choices, allowing you to explore your individual interests. You will experience a variety of teaching methods, as well as exploring your subject through independent study.

Bristol Futures
You can also enhance your learning with the new Bristol Futures curriculum enrichment scheme, built around three interdisciplinary pathways: Innovation and Enterprise, Global Citizenship, and Sustainable Futures. These complement our core values, and encourage you to be an open-minded and confident individual, prepared for the world of work.

‘Bristol has a good staff-to-student ratio to ensure supervisors and tutors have enough time for each student. From day one, I have been able to get help whenever I have needed it.’

Wenyan, China (MEng Mechanical Engineering)
An international home

Bristol is an international university in a truly cosmopolitan city. We are committed to providing a diverse and welcoming environment where everyone can thrive.

Our students and staff come from over 120 countries, creating a stimulating and dynamic space for learning. More than one in six of our students is from overseas and we believe that all benefit from our multicultural community.

International partnerships
With hundreds of partner universities around the globe, Bristol is a key contributor to higher education and research internationally. The University is a member of the Association of Commonwealth Universities (ACU) and the Coimbra Group of established European universities.

We are a founding member of the Worldwide Universities Network, an international collective of 21 research-intensive universities. Together we seek to address the major concerns facing humanity today, from climate change and food security to public health and migration.

A personal welcome
We want to make sure you get the best possible start at university. Throughout arrivals weekend our Student Ambassadors will be available to meet you at four different locations, including London Heathrow and Bristol International Airport.

Once you arrive at the University, visit our International Welcome Lounge where you can meet other students, sign up for social events and collect a bank letter. Each year, we organise a week-long welcome programme to help you make friends and settle into your new home.

Bristol Students’ Union offers a wide range of international and cultural societies where you can meet students from your country and around the world. To find out more, see page 18.

An international city
We are proud of our diversity. Bristol residents come from across the globe and speak nearly 100 different languages. Many international festivals are celebrated in the city throughout the year, bringing people of all cultures together.

Bristol is home to people of various faiths and none. The city houses 11 mosques, a Hindu temple, two synagogues, four Sikh temples, a Baha’i centre and a number of Buddhist meditation centres. There are also many Christian churches, supporting a range of denominations and offering services in different languages.

Home flavour
If you get hungry for home comforts, it’s easy to buy international ingredients for your favourite meal. Plenty of specialist grocery stores carry foods from East Asia, South Asia, Eastern Europe, Africa, the Caribbean and more, while large supermarkets usually have international sections. Halal food is widely available, as well as a wealth of vegetarian and vegan options.

---

1 in 6 students is international

---

‘The city sports a cool nonchalance with its variety of festivals, independent shops, street art and massive green spaces. It is teeming with diverse people from various cultures.’

Myeena, Sri Lanka (MB ChB Medicine) (not pictured)
Global opportunities

Across the globe, from Austria to Australia, Bristol students are leaving their footprints.

Each year over 500 students go abroad as part of their degree. As well as being an adventure, living in another country boosts your personal development, academic progress and employability. Travelling will provide a new perspective while your cross-cultural experience will be appreciated by employers after your graduate.

A world of opportunity
The University has more than 150 exchange links with top-ranking universities such as the National University of Singapore, University of California and University of Sydney. You can choose from courses taught in English or a foreign language, and we will fully recognise and accredit your time spent overseas.

Your options
Depending on your degree, you could study outside the UK for a semester or a full academic year. If you take modern languages you will have the option of working abroad as part of your course. Look out for degree courses that include ‘with Study in Continental Europe’ or ‘with Study Abroad’ in the title, or talk to your prospective department about the opportunities available.

Here to help
Our Global Opportunities advisers are on hand to provide practical support from the moment you make an application right through to your return to Bristol.

‘Studying abroad was without a doubt the best year of my life. New Zealand is an absolutely stunning country and the landscapes are unbelievably beautiful.’
Natalie (BSc Geography)

‘The year abroad for me has not only been an incredibly fun and beautiful experience but it has also helped me achieve my dream of speaking fluent French.’
Vanessa (BA French and Italian)

‘I had an amazing time during my year abroad in Barcelona and would recommend the experience to anyone. The skills I learned and the experience of living abroad have really boosted my CV.’
Sophie (BSc Politics and Spanish)

‘Choosing to study abroad in Hong Kong was the best decision I ever made. From its glowing skyscrapers to its stunning coastline and hiking trails, it is an absolutely beautiful place.’
Darey (MEng Computer Science)

‘I had an amazing time during my year abroad in Barcelona and would recommend the experience to anyone. The skills I learned and the experience of living abroad have really boosted my CV.’
Sophie (BSc Politics and Spanish)
Sport and societies

Whatever your interests, you’ll find students who share them in our 300+ clubs and societies. From joining a performance sport squad to sharing international cuisine, we offer an activity to suit you.

Bristol SU

When you join Bristol, you will automatically become a member of the University of Bristol Students’ Union. Led by students for students, Bristol SU runs over 300 societies and sports clubs as well as representing students’ views to the University and providing advice and support. Our societies bring together students with similar interests and our sports clubs cater for all skill levels, from international competitors to general interest groups.

Student societies

With a huge range of activities on offer, there is something for everyone at Bristol. You can take part in music, drama or dance, or enjoy new food, games or hobbies. Most students will join a few societies at the Welcome Fair in the first week of term.

Representing our diverse community, Bristol students run over 40 country-based societies. International societies can help you settle in by connecting with people from similar backgrounds and enjoying familiar cuisine, culture and festivals. You can also join religious societies. Societies are open to everyone and give you an opportunity to share your culture with students from all over the world.

Sport and physical activity

Whether you want to represent the University in a competition or take a fitness class with your friends between lectures – or both – you’ll find an activity for you. Taking part in sport is a great way to meet new people and make lasting friendships on and off the pitch.

There are over 60 student-led sports clubs to suit all interests, including rowing, table tennis, Bollywood dance, taekwondo and even Quidditch. You can also participate in intramural leagues, British Universities & Colleges Sport (BUCS) matches, or our annual Varsity Series.

Our extensive sports facilities include a fully-equipped gym, large sports hall and swimming pool, all on campus. Our off-campus sports complex offers grass and brand-new artificial 3G pitches, an Olympic weightlifting gym, tennis courts and more.

Staying active

There are lots of ways to get moving at Bristol that don’t require a specialist skill, equipment or gym membership. We offer an extensive timetable of free and low-cost exercise classes for all levels such as indoor football, yoga and badminton.

Performance Squad

Our Performance Sport programme enables competitive athletes to combine sporting and academic excellence at University. You’ll get support from one of our 30 dedicated Performance Squad coaches to help you unlock your potential. Scholarships are available for students competing at a senior, national or international level.

The squad has supported Olympians, Commonwealth medalists and world champions; eight Bristol alumni competed in the 2016 Olympic Games, bringing home two gold medals and one silver.

Volunteering

Our placement development and volunteering programmes help you build confidence and feel a part of the community while assisting others. It’s easy to take part and there are a range of opportunities with student-led projects, as well as charities and groups across Bristol and beyond.

In 2016 Bristol SU Volunteering was awarded the Queen’s Award for Voluntary Service for the amazing work our students do in the community.

bristol.ac.uk/activities/societies

300+ societies and sports clubs

‘I have found in Bristol a home away from home. The Mauritian society has helped me hugely in adapting into a new environment and embracing the British culture to its maximum.’

Jolene, Mauritius (MSci Mathematics with Statistics)
Culture

Bristol is a hub of creativity and culture. The city’s independent spirit shines through in its year-round festival line-up, frequent exhibitions and world-famous street art.

Music

Bristol is renowned for its diverse music scene. Performance spaces range from big-name venues, which have hosted the likes of Sia and David Bowie, to smaller clubs and bars for emerging acts. Classical music fans are also catered for with international artists and ensembles appearing at St George’s or the University’s own Victoria Rooms.

Festivals

The city’s packed festival calendar means there’s something to celebrate all year round. See page 22 for typical annual highlights.

Architecture

Bristol is a photogenic city with a maritime past. You can glimpse its 1,000-year history in medieval churches, elegant Georgian and Regency architecture, or Victorian wonders such as the Clifton Suspension Bridge. The University itself houses several architectural treasures, including the iconic Wills Memorial Building.

Museums

With student discounts available across the city, you could discover the historic SS Great Britain, or explore Bristol’s social past at the M Shed. Alternatively, experience our future as a hi-tech, digital hub at the country’s only 3D planetarium or at Aerospace Bristol, which showcases the city’s links to the aerospace industry.

Art

Historic exhibits and contemporary art sit side by side in Bristol’s many galleries. The Royal West of England Academy and Bristol Museum & Art Gallery host major exhibitions – and are next to the University. For something more modern, explore Arnolfini and Spike Island, or catch a temporary pop-up exhibition.

Bristol is famous for graffiti and street art, and is renowned as the home of Banksy. Neighbourhoods like Stokes Croft are alive with ever-changing murals and frescoes, while urban art hides around every corner.

A green capital

The city has over 450 parks and green spaces for a casual stroll or picnic, and it’s easy to explore the surrounding countryside and beaches by bus, bike or train. As a Fairtrade City and former European Green Capital, Bristol is recognised as one of the country’s most environmentally sustainable centres.

Neighbourhoods

Bristol is full of independent restaurants, catering for every cuisine, while the city’s many foreign supermarkets and delis ensure you’ll never be far from familiar flavours. You can purchase anything you need in Bristol, or browse for clothes, gifts, books and more. From high-street brands to independent traders, Bristol is a major destination for retail therapy.

Eat, drink and shop

Bristol is full of independent restaurants, catering for every cuisine, while the city’s many foreign supermarkets and delis ensure you’ll never be far from familiar flavours.

- Food Festive alpine markets, crafts and food
Accommodation

We offer a wide range of accommodation to suit all tastes and budgets. Our Accommodation Office can help you find your new home.

Our guarantee
We guarantee a place in halls of residence for all new first-year international undergraduates and postgraduates, subject to conditions. For details visit bristol.ac.uk/accommodation-guarantee.

Your choice
Living independently might be new to you, but it can be one of the most exciting parts of your university experience. We want you to feel happy and comfortable in your accommodation, so we offer a range of options to suit all tastes and budgets. Many students live in university-owned halls of residence in their first year, but we also provide specialist advice and support if you choose to live in private accommodation.
Accommodation

University-owned residences
The University has around 5,500 places in student residences, spread over three locations.
- Stoke Bishop is a student village set in 65 acres of grounds just three kilometres from campus. Each residence has its own bar or common room, computer room and study room. A free bus service will take you to the University.
- Clifton is an older, mostly residential area with plenty of shops, cafes and bars. Our Clifton halls are 15 minutes' walk from campus and each has its own bar or common room.
- City centre accommodation is ten to 20 minutes' walk from campus, with easy access to all the facilities that the city has to offer. Each residence has its own common room.

Residences range in size from 40 to 740 students. Our postgraduate residences provide around 1,000 places and most are located in the city centre.

Catered or self-catered?
Some undergraduate residences are catered, which means two meals a day are included in your fee. Our healthy and varied menus will suit a range of diets. Catered accommodation provides an opportunity to socialise at mealtimes and can make it easier to budget.
You may prefer to cook for yourself in a self-catered residence, giving you more flexibility in what and when you eat. Postgraduate residences are all self-catered.

Facilities and support
Our study bedrooms are equipped with all the furniture you need, and have either an en suite or a shared bathroom. Shared facilities vary, but most residences have a common room, study rooms, laundryette and bike storage. Every residence provides internet, 24-hour security and pastoral support – a network of nearly 100 support staff live or work alongside students in halls. Our Accommodation Office provides ongoing advice throughout your time at university.

If you choose university-owned accommodation, you won’t need a UK guarantor and you won’t need to complete a right to rent check.

Join a community
When you move into university accommodation you become part of a vibrant community where you can meet students from all over the world. Each residence has a Junior Common Room (JCR), a student-run committee that organises social activities such as concerts, theatre performances, summer balls and formal dinners. You can get involved in sporting leagues and our Active Residences programme, which makes it easy to fit in physical activity without leaving your hall.

Special requirements
Accommodation is available for students with disabilities or health needs, for mature students, and for those with special requirements for cultural or religious reasons – including some alcohol-free and single-sex flats. The University has a limited number of flats for couples and families, and priority is given to new international students and those with special requirements.

Private accommodation
The Accommodation Office provides information and guidance about renting privately. Bristol offers a specialist letting service for students, and there are many other property providers and direct let options in Bristol.

If you decide to live in private accommodation, you’ll still be a part of the student community. There are plenty of opportunities to meet new people at welcome events, and there is a dedicated student network, Brunel, which brings together students living out of halls.

What will it cost?
Accommodation fees for our halls of residence vary according to location, facilities and room type, but all include internet, bills and a bus pass. Prices for a single room vary from £109 to £197 per week, while shared rooms can be cheaper. The value of meals included in the rent for catered residences works out at around £50 per week.
Private rents will vary according to your preferences. A room in a shared residential property might cost between £80 and £110 per week, not including bills; commercial studio apartments are usually more expensive, but most include bills.

Find out more about student accommodation, including photos and films of University residences online.

“I have lived in central postgraduate student accommodation, which was great for meeting lots of like-minded individuals.”
Ji-Young, South Korea (PhD Philosophy)
We want you to have the best possible experience at Bristol, so we offer support for all aspects of university life – academic, personal and practical.

Improve your English language
Our dedicated Centre for English Language and Foundation Studies (CELFS) offers courses to help develop your academic language and literacy while you study. Find out more on page 30.

Academic support
We provide a range of tools to improve your academic skills. These can be accessed through your personal tutor and school office, or by attending peer-assisted study sessions, where you can learn with the support of your fellow students. You can also access the Study Skills service, which provides online interactive resources, individual tutorials, and workshops which students from any course can attend.

Making friends and settling in
The International Office provides a walk-in service offering advice on matters such as adjusting to local systems or bringing your family to the UK. We also arrange social events and offer a programme of visits to some of the UK’s most famous destinations, such as Stonehenge and London.

Our specific Student Visa Advice and Compliance Team provides expertise to help you apply for and comply with your student visa. Find out more on page 42.

Faith and spirituality
Bristol is a diverse place, where people of many different faiths and cultures live alongside one another. The Multi-faith Chaplaincy Centre offers support to all students regardless of belief or background, hosting worship and meditation groups, lunches and other opportunities to explore faith and spirituality. We also provide contacts to local places of worship and student faith societies.

Childcare
Our subsidised day nursery for children from three months to five years old is conveniently located on the main campus and is open on weekdays throughout the year.

A safe environment
The University of Bristol is committed to providing a fair and safe environment for studying and socialising. We have our own Security Services and Police Officer. If you live in a University residence, you will have the added support of a warden and pastoral team.

Health and wellbeing
The University of Bristol runs a full National Health Service (NHS) doctors’ practice. You will be eligible for NHS healthcare if your course lasts for six months or more. Practice staff are experienced in working with students and their families, and can manage general health problems straight away or refer you to a specialist.

To help you stay healthy and active during your time at Bristol, we provide great sport facilities on and off campus, as well as a range of programmes designed to help you make healthy lifestyle choices.

Faith and spirituality
Bristol is a diverse place, where people of many different faiths and cultures live alongside one another. The Multi-faith Chaplaincy Centre offers support to all students regardless of belief or background, hosting worship and meditation groups, lunches and other opportunities to explore faith and spirituality. We also provide contacts to local places of worship and student faith societies.

Childcare
Our subsidised day nursery for children from three months to five years old is conveniently located on the main campus and is open on weekdays throughout the year.

Counselling
Our Student Counselling Service is a safe place to talk through any problems, large or small. It offers a range of help including a well-stocked resource library, workshops covering topics such as how to cope with stress, group sessions and individual counselling. We offer tailored counselling support for international students and the team has experience in helping people cope with cultural adjustment.

Disability Services
Students with disabilities can access dedicated advice and support. Provision is available for students with long-term health conditions, mental health difficulties (such as anxiety or depression), specific learning difficulties (such as dyslexia), autism spectrum conditions (such as Asperger syndrome), visual and hearing impairments, and mobility difficulties.

Contact Disability Services early in the application process to find out how you can be supported and how any necessary support can be funded.

‘Bristol made everything extremely easy, right from the welcome from student ambassadors at Heathrow Airport. People were exceptionally helpful, guiding us new students in the right direction and Bristol soon became home.’

Srishti, India (BSc Neuroscience)
Language and academic development

Our Centre for English Language and Foundation Studies (CELFS) runs a range of courses to improve your English language and academic literacy before and during your studies.

Support tailored to you

We offer several options for study, including:

• a one-year foundation programme;
• pre-sessional courses;
• ongoing support during your degree.

CELFS is based on the main University campus in the recently refurbished Richmond Building. You will be taught in fully equipped classrooms with sweeping views across Bristol.

International Foundation Programme

Our one-year International Foundation Programme prepares you for undergraduate study. Through English language and academic units, we give you the skills you need to succeed.

If you successfully complete the programme, we will make you a conditional offer to progress to an agreed degree relevant to your previous studies. Our programme is the only one that guarantees you an offer from the University of Bristol. The qualification is also recognised by other UK universities.

The International Foundation Programme offers three pathways, designed in collaboration with academics from across the University:

• Arts and Humanities;
• Science, Technology, Engineering and Mathematics;
• Social Sciences and Law.

We work hard to ensure students develop on the programme. You will have a personal progression tutor to advise you on your academic path, access to all our academic, social and sports facilities, and guaranteed University accommodation. We also offer prestigious scholarships to support top students.

If you have a higher level of English, the International Foundation Programme Plus will allow you to focus more on your chosen academic studies.

Courses for non offer holders (postgraduate)

These pre-sessional courses are designed for students who do not have an offer from the University of Bristol. In small classes you will develop the academic language and literacy you need to succeed at postgraduate level.

We offer:

• 34-week pre-sessional course
  (September start);
• 22-week pre-sessional course (January start).

Pre-sessional courses

Our pre-sessional courses will prepare you for degree-level study in the UK. They can also help you demonstrate to the University that you have the required level of English.

Courses for offer holders

We run 14-week, ten-week and six-week summer courses. These pre-sessional courses are designed to show the University that you have the required level of English. They are suitable for students who already hold an undergraduate or postgraduate offer from Bristol.

Support during your degree

We understand that the transition to an English-speaking university can be challenging. Throughout your degree we can support you with your academic English, academic literacy and critical development.

bristol.ac.uk/english-language/study/current-students

‘You get lots of feedback on your work, and can have the teacher’s attention, which means you can improve your English tremendously.’

Alexandra, Russia
(International Foundation Programme)
(not pictured)
Tuition fees
Your tuition fee covers the costs of teaching, exams, registration, and membership of Bristol SU. Fees also contribute to the cost of University facilities.

The amount you pay will depend on your fee status. You can find further information and advice about this at bristol.ac.uk/fee-status.

All fees are reviewed annually and are not fixed for the duration of the programme. You should budget for an increase of up to 5 per cent per year. This increase does not apply to clinical courses.

English language course fees
The course fee for International Foundation Programme students in 2018/19 will be £17,300. You will need to pay a £1,000 deposit to secure your place.

Fees for pre-sessional English language study vary depending on the duration of your course, but in 2018/19 will range from £2,300 for a six-week course to £6,500 for an academic year. You will also need to pay a deposit to secure your place.

Undergraduate fees: non-clinical courses
Annual tuition fees for full-time international non-clinical undergraduates in 2018/19 will be:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Annual tuition fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arts-based courses</td>
<td>£16,500</td>
</tr>
<tr>
<td>Science-based courses</td>
<td>£20,300</td>
</tr>
</tbody>
</table>

Undergraduate fees: clinical courses
For clinical courses starting in 2018/19 your annual tuition fees will be as follows. The annual cost will stay fixed for each year of your course and will not rise with inflation:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Annual tuition fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>BDS Dentistry</td>
<td>£38,100</td>
</tr>
<tr>
<td>MB ChB Medicine</td>
<td>£31,600</td>
</tr>
<tr>
<td>BVSc Veterinary Science</td>
<td>£28,300</td>
</tr>
</tbody>
</table>

Postgraduate fees
Tuition fees depend on your programme of study. Please see individual programme pages to check the exact fees for your subject. For taught postgraduate programmes, you will need to pay a £1,000 deposit to secure your place.

Bench fees
For some subjects, you may need to pay an additional bench fee. Please see individual course pages to find out whether this will apply to you.

Tuition fees for EU students
Students from the EU who are starting university in the UK in 2018/19 will be eligible for home fee status. This means you will pay the same fees as UK students: £9,350.

Undergraduate fees: non-clinical courses
Annual tuition fees for full-time international non-clinical undergraduates in 2018/19 will be:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Annual tuition fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arts-based courses</td>
<td>£16,500</td>
</tr>
<tr>
<td>Science-based courses</td>
<td>£20,300</td>
</tr>
</tbody>
</table>

Undergraduate fees: clinical courses

Bench fees
For some subjects, you may need to pay an additional bench fee. Please see individual course pages to find out whether this will apply to you.

Cost of living
You can live well in Bristol for much less than in London; the cost of living is around 30 per cent cheaper than in the capital.* As Bristol is a student city, many shops, restaurants and venues offer a student discount.

As a guide, most students spend between £6,000 and £11,300 a year on living expenses, including accommodation, although you may spend more depending on your housing choices and lifestyle. Your cost of living will also increase if you travel internationally to get home.

Typical yearly costs for a single student at Bristol are shown on the right.

Typical costs of some common food items in Bristol are given below.

- Cappuccino in a café: £2.70
- 1kg of potatoes: £1.10
- 500g loaf of bread: £0.80
- 12 eggs: £1.70
- 1kg of white rice: £1.20
- 1kg of potatoes: £0.80
- 1 litre of milk: £0.80

**For more guidance on living costs, see bristol.ac.uk/living-expenses.**

Part-time work
You may wish to look for a part-time or vacation job to supplement your finances. Work experience can also help you develop transferable skills for your future career. Our Careers Service can help you search for these:

- Summer jobs
- Student city jobs
- Vacation jobs
- Casual jobs
- Part-time work

Depending on the working permissions on your visa, undergraduates and postgraduate students can usually work up to 20 hours per week, through the University recommends no more than 15. Pre-sessional and IELP students can usually work for ten hours per week. You may also be able to work full-time during vacations.

Our Visa Advice and Compliance Team holds weekly drop-in sessions where you can find out more about securing employment once you are here.

For more information, please visit bristol.ac.uk/careers.

Student visa applications
If you require a visa to study here, you must show you have sufficient funds to pay for your degree, including tuition fees and living costs. Any expected earnings from part-time work should not form part of your visa application. For details, see bristol.ac.uk/directory/visas/tier-4.

Advice and support
The Student Funding Office offers advice on scholarships, emergency short-term loans, living costs and budgeting, both before you apply and during your studies.
Financial support may be available to help with your fees and living expenses. There are several University scholarships and awards available for international students, as well as external opportunities. Funding availability will differ depending on your fee status. You can search for funding opportunities on our website: bristol.ac.uk/fees-funding/search. We recommend that you investigate possible scholarships in your country as well, and make sure you apply early.

Scholarship opportunities are competitive and many students are self-funded or hold smaller awards to help with the cost of their studies. If you are a self-funded student, you must make sure you have adequate financial provision for the first year of your course in order to secure a visa.

International scholarships
The University awards a number of scholarships to prospective undergraduate and postgraduate students in recognition of their talent and achievement. The scholarships are awarded as a single tuition fee reduction, and you must have been offered a place before applying.

Undergraduate level
At undergraduate level, many countries offer their own funding for outstanding students via government and private organisations. The University is pleased to support many overseas funding initiatives. Find out more on our country-specific web pages: bristol.ac.uk/international/countries.

Postgraduate taught level
You may be able to secure corporate sponsorship from your home country. Our funding search also lists well-known international funding sources, many of which have a country-specific focus.

Chevening Scholarships
We are proud to be a partner University of Chevening. This global scholarship programme from the UK government allows outstanding scholars from eligible countries to study one-year postgraduate courses in the UK. www.chevening.org

Commonwealth Shared Scholarship Scheme
We offer a number of scholarships in association with the Commonwealth Scholarship Commission. This scheme supports students from developing Commonwealth countries to study a selection of specific one-year taught postgraduate courses. cscuk.dfid.gov.uk

Postgraduate research level
Studentships are available for PhD study, for which there are no limitations on nationality or course. Your prospective faculty or school can advise you on what is available and how and when to apply.

You may find that your own government has a scholarship scheme which covers your fees and living costs. Many trusts and charities also offer small grants to postgraduate students.

EU students
If you are an EU national applying for a course starting in 2018/19, you are eligible to apply for the same student loans and funding as UK applicants. As an indication, EU students starting in 2017 could apply for a full undergraduate tuition fee loan, or a postgraduate study loan of up to £10,280.

For full details and to contact us for advice visit: bristol.ac.uk/fees-funding

‘Studying in Bristol has been the most wonderful experience in my life... studying here has broadened my horizon... I have learnt and interacted with world-leading scholars and lecturers.’
Mark, Ghana
(International Office Scholarship, MSc Public Policy)
How to apply

Step 1
Undergraduates: once you have your degree offer, email celfs-presessional@bristol.ac.uk for information on how to apply.
Postgraduates: tick the pre-sessional course box when accepting your offer of postgraduate study. Email celfs-presessional@bristol.ac.uk if you have already applied.

Applying online:
Study (CAS).
If you require a visa to study in the UK, we will now issue a Certificate of Acceptance to Study (CAS).
We will consider your application and email you once we have made a decision. For certain courses, you may be invited to an interview. If your application is successful, you will receive either a conditional or unconditional offer.
UCAS applicants will also be notified by UCAS when a decision has been made. When you have replies from all your courses, you can accept one firm choice, one insurance choice in case you do not meet the grades of your firm offer. If you apply through Common App, you can either accept or decline our offer.

Step 2
If you are not using UCAS, you can apply to most courses via www.commonapp.org.
You must apply via UCAS for Medicine, Dentistry or Veterinary Science by 15 October.
The closing date for all other undergraduate courses is 30 June, but we advise you to apply as close to the UK deadline of 15 January as possible as some courses may fill early.

Step 3
If you meet the conditions of your offer, we will confirm your place.
We will consider your application and email you once we have made a decision. For certain courses, you may be invited to an interview. If your application is successful, you will receive either a conditional or unconditional offer.
UCAS applicants will also be notified by UCAS when a decision has been made. When you have replies from all your courses, you can accept one firm choice, one insurance choice in case you do not meet the grades of your firm offer. If you apply through Common App, you can either accept or decline our offer.

Step 4
If you require a visa to study in the UK, we will now issue a Certificate of Acceptance to Study (CAS).
We will consider your application and email you once we have made a decision. For certain courses, you may be invited to an interview. If your application is successful, you will receive either a conditional or unconditional offer.
When you accept your pre-sessional course offer, you should provide a copy of your passport details page.

Selection
The University assesses applications in accordance with a clear set of principles. We publish admissions statements for all our programmes, which outline how applications are assessed and the criteria used to assess them. This includes information about interviews and whether they are required for each programme. Admissions statements for 2018 entry will be finalised in August 2017 for undergraduate applications, and in September 2017 for postgraduate applications. For the latest information, visit bristol.ac.uk/applicant-policies-ug and bristol.ac.uk/applicant-policies-pg.

Your offer
A conditional offer means your place is dependent on achieving specified grades, and/or meeting our English language requirements. An unconditional offer means you have already met all the academic requirements for your chosen programme.

Making a research proposal
If you are a postgraduate research applicant you may want, or be requested, to propose your own area of study. The school website and admissions statement will give more information on what your research proposal should contain.

Incomplete applications
Applications submitted without the correct supporting documents will be held until the required information is provided, so may take longer to consider.

We welcome applications from the best and brightest students worldwide.

International qualifications
The University of Bristol accepts a wide range of qualifications for undergraduate and postgraduate study. If you studied at a school, college or university outside the UK, you will find detailed information about qualification equivalences at bristol.ac.uk/international/countries.

If your qualifications are not suitable for direct entry onto one of our undergraduate courses, our International Foundation Programme can provide the necessary English Language and academic preparation. For more details see page 30.

English language requirements
International applicants are required to have a good standard of English to study at Bristol, and different programmes need different language levels. If English is not your first language, you will need to submit evidence of your English language proficiency.

The English language profile needed for each programme is specified in our online course listings. Details of each profile can be found at bristol.ac.uk/study/language-requirements.

You do not need to have reached the required level before applying. If you don’t yet fulfil the specified profile, we will give you a target grade in your offer.

Education representatives
The University has agreements with a number of education representatives, also known as agents, which are listed at bristol.ac.uk/international/countries. Representatives can assist you with applying, but using a representative does not put your application at any advantage or disadvantage when we make a decision.

Admissions tests
For some courses, you must take an admissions test before we can offer you a place. If you are applying for a medical or dental degree, you will need to take the UK Clinical Aptitude Test (UKCAT). If you are applying for a Law LLB course, you will need to take the National Admissions Test for Law (LNAT). Some other courses, such as Innovation degrees, may also require additional assessments.

Subjects
Some courses require you to have studied particular subjects. This will be specified in the online course profile.

Mature students
We welcome applications from mature students and will take into account a range of vocational qualifications, occupational and life experiences, as well as more traditional qualifications. We may invite mature students to an interview.
Visas explained

You may need a visa to study in the UK. Our dedicated International Student Visa Advice and Compliance Team is available to offer advice and guidance from the moment you accept an offer right through to graduation.

**International applicants**
If you are from outside the European Economic Area (EEA) or Switzerland, you will need a visa to study in the UK. For the majority of students, this will be a Tier 4 (General) student visa. Full details about the different types of visas and criteria are available online: [bristol.ac.uk/directory/visas](http://bristol.ac.uk/directory/visas).

**EU applicants**
Students from the EEA or Switzerland currently have the right of residence and do not need a visa. To see the latest information for EU students, visit [bristol.ac.uk/study/eu-referendum](http://bristol.ac.uk/study/eu-referendum).

**Other requirements**
Some postgraduate science and technology courses require an Academic Technology Approval Scheme certificate (ATAS clearance). Further information can be found online: [www.gov.uk/guidance/academic-technology-approval-scheme](http://www.gov.uk/guidance/academic-technology-approval-scheme).
Courses and programmes

We offer 400+ courses across a range of levels. Use this index and our online course finder to find the one that's right for you.

**What you can study**
- Pre-sessional English language courses and foundation programmes;
- Undergraduate courses, leading to a bachelor’s degree;
- Postgraduate taught programmes, leading to a master’s degree;
- Postgraduate research programmes, such as PhDs and professional doctorates.

**Undergraduate courses**
The University of Bristol offers more than 200 undergraduate degree programmes (eg BA, BSc, LLB). You can immerse yourself in one subject in a single Honours degree, or take Joint Honours and study two subjects alongside one another.

Most undergraduate courses are three years long. You may be able to take an additional year abroad or during industry in the middle of your degree. In many science, engineering and medical science courses you can choose a four-year Integrated Masters degree (eg MEng, MSc). Dentistry, Medicine and Veterinary Science degrees usually take five years.

**Postgraduate taught programmes**
These courses (eg MA, MSc, MRes, LLM) combine taught units with a research project, and are studied over one year or occasionally two. A taught postgraduate degree can help you specialise in a certain area, expand on your undergraduate interests, or even discover a new field of study.

**Postgraduate research programmes**
On a postgraduate research degree, also known as a doctoral programme, you will conduct original research under the close supervision of academic experts.

A Doctor of Philosophy (PhD) is the most common research degree, normally representing three to four years of full-time study.

Our one-year or two-year Masters by Research degrees include a structured research project, and can be a valuable foundation for starting a PhD.

**International degree preparation courses**
Our pre-sessional courses and foundation programmes are the ideal preparation if you need to improve your English language or academic knowledge before starting university. For details, see page 30.

**Use our course finder at [bristol.ac.uk/study](http://bristol.ac.uk/study) for detailed course information, including entry requirements, course content, career prospects and professional accreditation.**

To find out more about international qualifications and English language requirements visit [bristol.ac.uk/international/countries](http://bristol.ac.uk/international/countries).

Bristol is a vibrant city just 90 minutes from London. Surrounded by UNESCO World Heritage sites and spectacular countryside, from here you can explore all of the UK and fly direct to over 100 European destinations.

London 1h 40m
Edinburgh 6h 1h 10m
Dublin 1h 15m
Paris 1h 15m

How to find us
International Office
University of Bristol
Beacon House
Queen’s Road
Bristol BS8 1SE, UK
Tel: +44 (0)117 331 8591
Email: choose-bristol@bristol.ac.uk

Meet us
Meet us in your country
Our expert staff attend a range of education events worldwide each year. We would love to meet you to answer your questions, offer advice and discuss your plans for university. Find out which countries we will be visiting over the coming months at bristol.ac.uk/international/countries/visits.html.

Visit us in Bristol
There are many chances to experience Bristol in person, from our University-wide open days to year-round campus tours. You can also take a self-guided audio walking tour, or if you aren’t able to visit in-person, explore our 360° tours online. Find out more about visiting at bristol.ac.uk/visit.

Bristol is close to many of England’s top tourist attractions.

1. Bath
   UNESCO World Heritage site featuring historic Roman architecture and thermae baths.
2. Surfing
   Coastline surrounds the Bristol area, with several famous beach breaks only a drive away.
3. Stonehenge
   Built around 5,000 years ago, the stone circle is a unique prehistoric monument and UNESCO World Heritage site.
4. Glastonbury Festival
   The world’s biggest greenfield festival, Glastonbury attracts hundreds of international bands and artists each year.
5. Cardiff castle
   Explore over 2,000 years of history at Wales’ impressive 11th-century castle.
6. Stratford-upon-Avon
   Shakespeare’s birthplace, home to the RSC theatre company and 800 years of history.
