Finance

Studying for a degree is a significant investment in your future. You can find out more about bursaries and scholarships on p42.

Tuition fees – UK students

Tuition fees for UK students in 2018/19 are £9,250. Fees for 2019 entry are expected to be confirmed and published on our website in summer 2018. For the latest information visit bristol.ac.uk/ug-fees-funding.

Eligible UK students can apply for a loan to cover the cost of tuition fees. This means that you will not be expected to pay your fees before or during your time at university.

Tuition fees – EU students

Currently, eligible EU students pay the same fees as UK students and can apply for the same loans. At the time of writing the tuition fee policy for EU students starting in 2019 is not finalised. Visit our website for updates bristol.ac.uk/fees-funding/tuition-fees/eu-referendum.

Tuition fees – Channel Island and Isle of Man students

If you usually live in the Channel Islands (CI) or Isle of Man (IoM), you will not be considered as a home student for funding purposes. The University receives no additional contribution from the UK government towards the cost of your studies. Your tuition fees and the student support available to you will be different from those for mainland UK and EU students. Visit bristol.ac.uk/ug-fees-funding or contact your relevant Island Education Authority for more details.

Tuition fees – international students

If you are an international (non-EU) student, your tuition fees will depend on your course of study. Fees for 2019 entry have not been confirmed at the time of going to press but the international student fees for 2018/19 are shown as a guide. Please note fees are reviewed annually and are liable to increase in line with UK government policy (except for clinical courses).

Subject	Annual tuition fee 2018/19
Arts-based subjects	£16,500*
Science-based subjects	£20,300
BDS Dentistry	£35,100
MB ChB Medicine	£31,800
BVSc Veterinary Science	£28,300

*Certain laboratory- or studio-based courses in the Faculty of Arts and the Faculty of Social Sciences and Law charge fees at the science-based rate. Check our online course finder for tuition fees for your chosen course bristol.ac.uk/ug-study.

Fee status

For fee purposes, the University classifies students as UK, EU or international. Further information is available at bristol.ac.uk/ug-fees-funding.

Living expenses

The cost of living in Bristol varies as much as student lifestyles. You will need to think about accommodation, food, books, entertainment and other costs. For a breakdown of estimated living expenses visit bristol.ac.uk/living-expenses.

Support with living expenses

If you are a full-time UK student, you may be eligible for a maintenance loan towards your living expenses in addition to your tuition fee loan. The loan amount will depend on your household income and will only become repayable once you have graduated and are earning a pre-tax salary above the repayment threshold. Further information and terms and conditions are available from www.gov.uk/student-finance.

Additional support is available for disabled students and those with childcare costs or adult dependants. Please contact your funding authority for more information.

International student funding

In order to secure a visa to study in the UK, international students need to show they have sufficient funds to cover their first-year tuition fees and living expenses.

For information about visas visit bristol.ac.uk/directory/visas/tier-4. The UKCISA website also contains useful information on fees and funding for international students www.ukcisa.org.uk.

US loans

For eligible US students, the University is authorised to certify federal student loans (subsidised, unsubsidised and PLUS loans) and private loans. Further details on US loans and how to apply are available at bristol.ac.uk/fees-funding/awards/us-loans.

Information and advice

Our Student Funding Office provides information and advice on financial support from the UK government and the University, managing your money, discretionary support and emergency loans.

Please note: all figures in this section are for 2018 entry as 2019 figures had not been set at the time of going to press. All figures are subject to change.

Visit us

If you are ready to discover more about becoming a University of Bristol student, there are many ways to visit us, meet us and find out more.

Open days

Our open days are stimulating days out, offering unique access to our departments and residences and a real experience of student life in Bristol. We offer a packed programme of talks and tours, with many opportunities to meet academics, current students and our student services teams bristol.ac.uk/opendays.

Open days 2018

Friday 15 June 2018

Saturday 16 June 2018

Saturday 8 September 2018

Saturday 3 November 2018

Online booking for June dates opens on Wednesday 18 April 2018 and places are likely to fill quickly.

Visit days

If you receive an offer from us, you will be invited to spend a day on campus, exploring your department and meeting students and staff from your course. Visit days aim to give you a real insight into life as a University of Bristol student and you'll be able to view our facilities, learn more about how we teach your subject, and maybe even attend a taster lecture or practical session.

Tour the campus

We offer student-led campus tours throughout the year. You can also explore University buildings and residences from home using our virtual tours bristol.ac.uk/ug-visits.

Meet the team

You can meet with us in person at one of the higher education or careers fairs we attend throughout the UK. We visit schools and colleges regularly to give talks and run workshops about the admissions process and life at university. If you are a teacher or careers adviser you can find out more on our website bristol.ac.uk/study/teachers.

Speak to the Enquiries Team

If you have any questions about a course or about making an application to study at Bristol, you can contact the Enquiries Team.

Undergraduate accommodation

Stoke Bishop halls

The Stoke Bishop student halls are approximately two miles or a 40-minute walk from the main University campus. A regular University bus service runs between the campus and Stoke Bishop and the journey takes around 15 minutes.

- Badock Hall
- Churchill Hall
- Durham Hall
- Hiatt Baker Hall
- University Hall
- Wills Hall

Clifton halls

The Clifton halls are within a 15-minute walk of the main University campus.

- Clifton Hill House
- Goldney Hall
- Manor Hall
- Richmond Terrace
- 115 Queen's Road

City halls

There is a variety of student halls in the city centre, including The Courtrooms, Favell House, New Bridewell, Orchard Heights, The Rackhay, Unite House and Waverley House.

Student houses

The University owns and manages a range of student houses, all of which are within a 25-minute walk of the main University campus.

Transport

If you live in University-allocated accommodation you can travel for free on the University bus service.

For more information on accommodation, see p36.

†The School of Mathematics will move to the Fry Building in September 2018.
*We are investing in extensive improvements of our Clifton campus which may affect the location of departments. Please check the website for the latest information: bristol.ac.uk/maps.

Our courses

Our undergraduate degree courses are either Single Honours or Joint Honours, which allow you to study two subjects alongside one another.

Social sciences and arts courses (except for modern languages) generally take three years to complete and lead to a bachelor's (BA, BSc or LLB) degree. Most science and engineering courses, and some medical science courses, offer a choice of three-year bachelor's or four-year integrated master's (MEng, MSci) degree. If you are unsure which course to apply for, we recommend applying for the master's course in order to secure four years of financial support, since funding bodies may refuse a subsequent extension of study. Dentistry, medicine and veterinary science courses usually take five years to complete.

Courses with Study in Industry

A number of our science, medical science and engineering courses include a year of industrial experience. The first two years of these courses are normally the same as the corresponding Honours degree courses. The third year is spent gaining valuable experience in industry, before returning to Bristol for your fourth and final year.

Courses with time spent abroad

Many of our courses offer you the opportunity to study or work abroad, which can broaden your experience of university education and enhance your CV. Our degrees with 'Study Abroad' or 'Study in Continental Europe' in the title offer a year of study at one of our partner institutions overseas.

Courses with Innovation or Quantitative Research Methods

On these degree courses, two thirds of your studies will follow the corresponding Single Honours degree, focusing on the core knowledge in your subject. The remaining third of your course provides additional experience in innovation or training in quantitative methods, offering invaluable skill sets for your future career. See p104 and p132 respectively for details.

BSc with a preliminary year of study

We offer degrees in Chemistry and in Physics with a preliminary year of study. These four-year courses are suitable for applicants who wish to study science but need to improve their level of attainment in the sciences.

Intercalation

We support our students who want to enhance their medicine, dentistry or veterinary science degrees by intercalating, and we welcome students from other universities who are looking to intercalate at Bristol. For more information and a list of available courses please visit bristol.ac.uk/intercalate.

Part-time courses

A part-time course is ideal if you need to balance studying for a degree with other commitments. We offer BA English Literature and Community Engagement (p90) and Foundation in Arts and Humanities (CertHE) (p59) as part-time courses. Several of our full-time degrees may also be studied part-time; if this option is available, it will be indicated within the course entry in this guide.

Student agreement

The University values its students and works to provide the support structures and opportunities that will enable you to excel in every aspect of your life and make your time at Bristol a genuinely transformative experience. To help create a positive environment for learning and academic achievement, the University has established various rules and regulations that all students must follow if they accept an offer of a place to study with us. These rules and regulations include a Student Agreement, which sets out the relationship between the University of Bristol and its students. Copies of the current versions of the agreement and other policies are available at bristol.ac.uk/applicants/policies.
