The University is committed to equality of opportunity. To help the University to monitor the effectiveness of its Equality and Diversity policy, please take a few moments to complete this section of the form.

Please be assured that this information will be treated in confidence and will only be used for monitoring purposes. The data will enable us to benchmark the diversity of our board and its committees and monitor progress over time. In order to consider the overall diversity, we may provide summary diversity monitoring data to the Board, to relevant committees and/or to Office for Students (OfS) or other external bodies. Any such data will be anonymised.

1 The Higher Education Code of Governance published by the Council of University Chairs states that ‘governing bodies are expected to routinely consider their composition and take steps to ensure they reflect societal norms and values’. The Office for Students will also promote student choice through diversity of providers; take equality of opportunity into account across all of its activities and decisions; and promote equality and diversity across all aspects of its work. As a result, there is now a clear need for robust, accurate and secure equality monitoring information about members of governing bodies, which is collected at a national level routinely.
