Telephone: +44 (0)117 342 3154

Website: www.bristol.ac.uk/study/postgraduate/2018/health-sciences/msc-perfusion-science

Admissions cycle

This Admissions Statement applies to applications submitted for entry to the programme between 1 October 2018 and 30 September 2019.

Application deadline

Application deadlines for this programme can be found on the individual programme page within the [University course finder](#).

Admissions criteria

Academic requirements

Applicants must hold/achieve a minimum of an upper second-class (or, exceptionally, a lower second-class) honours degree in a science or medicine-related subject, and must have secured a clinical perfusion scientist trainee position in an accredited training centre in Great Britain or Ireland.

For information on international equivalent degree qualifications, please refer to our [International Office website](#).

English language requirements for non-native English speakers

Applicants whose first language is not English, and whose full undergraduate degree was not taught in an English-speaking country, must hold/achieve a minimum score in an approved English language test as specified in Profile E of the [University's English Language Requirements Policy](#).

You do not need to have reached the required level of English language before applying. If necessary, English language will be included as a condition of offer.

There is an option to take one of the University's Pre-sessional English courses; details are available on the [Centre for English Language and Foundation Studies website](#).

Additional requirements

There are no additional requirements for this programme.

Application process

Online application form

Applicants should complete the online application form, uploading all required documents directly. Guidance on uploading documents can be found in the [guidance for online applications](#). Paper documents received by post, or electronic documents received by email, are only considered in exceptional circumstances.

Before applying, make sure you choose the right programme by reading the prospectus entry and Admissions Statement fully. If you need clarification, please [contact the relevant admissions team](#).

Applications may not be considered until all required documents have been uploaded. If you have already submitted an application, you can upload additional documents into the 'Post-submission uploads' section of the application form.

Documents required

Required documents for this programme are as follows:

- **Two academic references (minimum).** References should be submitted electronically by the referee, using the online reference form. Alternatively, scanned copies of the original reference document(s) can be uploaded by the applicant.

If you graduated more than two years ago, or if professional experience is relevant to your application, a professional reference will be accepted in lieu of one academic reference. At least one referee should be familiar with your academic work. References must be written, signed and dated on official letter-headed paper from the referee's organisation, and must include full referee contact details, as shown in the [reference template](#). References supplied with a personal contact email address are only accepted in exceptional circumstances, which must be explained within the reference. All references must be dated within the last two years.

- **Degree certificate(s)** from first and subsequent degrees. We require colour scans of original documents and certified translations of documents issued in any language other than English.
- **Academic transcripts** from first and subsequent degrees. We require colour scans of original documents and certified translations of documents issued in any language other than English. Transcripts must list all subjects taken and grades achieved to date, with the grade scale clearly displayed in the transcript. Applicants must state their current average grade in the online application form.
- **Personal statement.** The personal statement should highlight your reasons for applying, and details of how the programme will benefit your development and future career.
- **English language certificates** are required from applicants whose native language is not English and

whose full undergraduate degree was not taught in an [English-speaking country](#).

- **Curriculum vitae (CV).** CVs might include details of other relevant work experience and qualifications to support an application. Please do not include any school (pre-university) certificates, unless specified above.
- **Official letter** confirming an offer of a trainee position as a clinical perfusion scientist in an accredited training centre in Great Britain or Ireland.
- **Completed sponsorship authorisation form**, confirming the name and contact details of the organisation responsible for payment of the fees.
- **Confirmation** of application for membership to College of Clinical Perfusion Scientists.

Correspondence with applicants

We will correspond with you via the email address used to set up your application form account. Please keep this address up-to-date.

Selection process

Assessment of applications

All applicants are considered on an equal basis in line with the [University's Equality and Diversity Policy](#).

Once a complete application has been submitted with all required supporting documents, it is reviewed by two members of staff using the following criteria:

- Qualifications/grades at the time of applying
- Motivation for applying (as outlined in the personal statement)
- Academic references

Where an applicant has undertaken a transnational education partnership programme or top-up degree, meeting the minimum academic entry criteria will not automatically mean an applicant will receive an offer. For these applicants, admissions decisions will consider the academic history of the applicant alongside relevance of degree, and, if required, degree content, and performance in key modules.

Each applicant is considered both holistically on their own merit and in competition with the rest of the applicant cohort during the academic cycle.

Interviews

Interviews do not form part of the selection process, although we sometimes contact candidates to further clarify their application.

Decisions

Notification of decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. Decision letters include any deadline by which applicants must accept an offer.

Offers

Offers are typically made in line with the academic requirements set out above.

Offers may be conditional or unconditional. Unconditional offers are made to successful applicants who have met the admissions requirements. Successful applicants who have not yet fulfilled the academic or language requirements will receive a conditional offer outlining the outstanding requirements.

Unsuccessful applicants may be considered for an alternative programme in a related subject area. In such cases, applicants will receive an email with details of the alternative options. You may have to submit

additional documentation in order to be considered for an alternative programme. Please check the relevant [admissions statement](#) for details.

Deferrals

We only consider deferrals in exceptional circumstances. Please [contact](#) the admissions team to discuss the possibility of deferring your start date.

Additional information

Extenuating circumstances

If your education has been significantly disrupted through health or personal problems, disability or specific difficulties within your studies, you can submit an [extenuating circumstances](#) form as part of your application.

The information provided will be treated confidentially, and will help us to assess your academic performance fairly in light of your circumstances.

ATAS

An ATAS certificate is not required for this programme.

Deposits

International self-funded students accepting a place on a taught postgraduate programme must pay a deposit of £1,500. Further information on [how to pay programme deposits](#) is provided in the offer letter as well as online.

The deposit is non-transferable and non-refundable except under the circumstances outlined in the [International Deposits Refund Policy](#).

Visa

This is a part-time programme, and, as such, international students coming to the UK cannot apply for a Tier 4 student visa to study on this course. Please contact [Student Visa Services](#) for advice.

Sponsored students

Sponsored students are not required to pay the deposit, but must upload a copy of their sponsorship letter in the 'Post-submission uploads' section of the online application, and must also complete and upload the [sponsorship authorisation form](#).
