## Selection process

### Assessment of applications

All applicants are considered in line with the University's [Admissions Principles and Procedures Policy](#) and [Equality, Diversity and Inclusion policy](#). Once a complete application has been submitted with all required supporting documents, it is considered by at least two members of staff using the following criteria:

- Academic achievement
- English language proficiency (where applicable)
- Academic references
- personal statement
- Interview performance (where interviews are held)

Your performance in your first degree is generally the most important criterion, along with referees' statements regarding your potential to do well and develop as a scientist. Where an applicant has undertaken a transnational education partnership programme or top-up degree, meeting the minimum academic entry criteria will not automatically mean an applicant will receive an offer. For these applicants, admissions decisions will consider the academic history of the applicant alongside relevance of degree, and, if required, degree content, and performance in key modules. Each applicant is considered both holistically on their own merit and in competition with the rest of the applicant cohort during the academic cycle

### Interviews

Candidates may be invited for interview, and to visit the school and meet the supervisors. The purpose of the interview is to assess whether the applicant currently has the necessary skills and capabilities to pursue the chosen postgraduate programme, and whether the programme is appropriate to the applicant's interests and aspirations. If required, interviewees based overseas will normally be interviewed by telephone or Skype. All interviews are conducted by two members of staff, at least one of whom is trained in fair and effective recruitment techniques. All interviews are undertaken in accordance with the University's Equality & Diversity policy.

### Decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. If there is a deadline by which applicants must accept an offer of admission or pay a deposit, this will be stated in the offer letter.

### Offers

Offers will typically be made in line with the academic requirements set out above. Offers made may be conditional or unconditional. An unconditional offer will be made to applicants who have already met the conditions and provided evidence that conditions have been met. Where academic or language requirements have not yet been fulfilled, applicants will receive a conditional offer outlining the requirements that must be met.

If an applicant is not selected to receive an offer for the course to which they have originally applied, we may offer the opportunity to be considered for an alternative programme in a related subject area. In such cases applicants will receive an email notification providing any alternative course options and asking whether they wish to be considered for these. It may be necessary for applicants to submit additional documentation in order for the application to be fully considered for an alternative programme. Details of the documentation required can be found in the admissions statement for the relevant programme.
