Admissions criteria

Academic requirements
Applicants must hold/achieve a minimum of; a good honours degree (minimum requirement is a 2:1) or master's degree in a relevant disciplines. As this is a multi-disciplinary programme degrees may be in a range of science subjects, but the applicant should be able to demonstrate how they will apply this to molecular, genetic or lifecourse epidemiology in their research statement.

For information on international equivalent qualifications, please refer to our international Office website.

English language requirements
Profile B

All applicants are required to have reached the required profile level of English language as specified by the University's English Language Requirements Policy prior to registration on to this programme.

Non-standard applications
We welcome applications from those with non-standard qualifications who can demonstrate knowledge, experience and skills developed in the workplace, or elsewhere, relevant to the programme of study. Please use your personal statement to provide further details. Non-standard applications will be considered by the Admissions Tutor(s) for the programme on a case by case basis.
# Application process

## Online application form

Applicants should complete the online application form, uploading all required documents directly. Further information is available on our [guidance for online applications page](#).

Applications will not be considered until all required documents have been uploaded. If you have already submitted an application, you can upload additional documents into the ‘Post-submission uploads’ section of the application form. Paper documents received by post, or electronic documents received by email, are only considered in exceptional circumstances.

## Required and optional documents

| ✓ | **Two academic references (minimum):** | References should be submitted electronically by the referee, using the online reference form. Alternatively, scanned copies of the original reference document(s) can be uploaded by the applicant. If you graduated more than two years ago, or if professional experience is relevant to the application, professional references will be accepted in lieu of one academic reference. At least one referee should be familiar with the applicant’s academic work. References supplied with a personal contact email address will be accepted in exceptional circumstances, which must be explained within the reference. All references must be written, signed and dated on official letter headed paper from the referee’s organisation. They must include the reference’s full contact details, i.e. postal address, telephone number and organisation email address and must be dated within the last two years. A reference template is available to show the required format. |
| ✓ | **Degree certificate(s):** | From first and subsequent degrees. We require colour scans of original documents and certified translations of documents issued in any language other than English. |
| ✓ | **Academic transcripts:** | From first and subsequent degrees. We require colour scans of original documents and certified translations of documents issued in any language other than English. Transcripts must list all subjects taken and grades achieved to date, with the grade scale clearly displayed in the transcript. Applicants must clearly state their current average grade in the online application form. |
| ✓ | **Personal statement:** | Personal statements should highlight the motivation for applying for the course, and any relevant experience and/or skills. |
| ✓ | **English language certificates/other evidence:** | All applicants are required to have reached the required profile level of English language as specified by the [University's English Language Requirements Policy](#). |
| ✓ | **Curriculum Vitae (CV):** | CVs might include details of other relevant work experience and qualifications to support an application. Please do not include any school (pre-university) certificates, unless specified above. |
| ✓ | **Research Statement:** | The primary requirement for the research statement is to define and situate your research within an academic/disciplinary context. You |
should remember that people in the academic community are the primary audience/readership for postgraduate research. This means that you will need to identify:

1. The research questions or problems that you intend to address;
2. The research context for your project/programme of work;
3. The methods you think you will use to pursue the key questions.

| ✓ | A covering letter | A covering letter stating clearly that you are applying for the Wellcome Trust four-year PhD programme in Molecular, Genetic and Lifecourse Epidemiology. The letter should include a personal statement (maximum 250 words) about your career aspirations. |

**Optional Documents**

| Additional references | You are welcome to upload additional references, such as professional references from work experience in a related field and/or industrial placements, to further support your application. |
| Research Training Statement | Applicants are welcome to provide details of any relevant qualifications or training required to assist with their application. |

## Selection process

### Assessment of applications

All applicants are considered in line with the University’s Admissions Principles and Procedures Policy and Equality, Diversity and Inclusion policy. Once a complete application has been submitted with all required supporting documents, it is considered by a selection panel (including programme directors) following the closing date. As we receive a large volume of high-quality applications for a small number of places, we typically shortlist applicants for interview according to their academic qualifications and the strength of their research proposal and personal statement.

### Interviews

Interviews form part of the selection process. For this programme and comprise a five-minute presentation from the applicant on their proposed research, followed by project-specific and generic questions from the panel.

The purpose of the interview is to assess whether the applicant has the necessary skills and capabilities to pursue the chosen postgraduate programme, and whether the programme is appropriate to the applicant’s interests and aspirations.

Interviewees based overseas will normally be interviewed by telephone or Skype.

### Decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. If there is a deadline by which applicants must accept an offer of admission or pay a deposit, this will be stated in the offer letter.

### Offers
Offers will typically be made in line with the academic requirements set out above. Offers made may be conditional or unconditional. An unconditional offer will be made to applicants who have already met the conditions and provided evidence that conditions have been met. Where academic or language requirements have not yet been fulfilled, applicants will receive a conditional offer outlining the requirements that must be met.

If an applicant is not selected to receive an offer for the course to which they have originally applied, we may offer the opportunity to be considered for an alternative programme in a related subject area. In such cases applicants will receive an email notification providing any alternative course options and asking whether they wish to be considered for these. It may be necessary for applicants to submit additional documentation in order for the application to be fully considered for an alternative programme. Details of the documentation required can be found in the admissions statement for the relevant programme.

**Deferrals**
This programme does not normally allow deferrals unless there are exceptional circumstances. Please contact phs-pgradmin@bristol.ac.uk if you would like to discuss the possibility of deferring your start date.

**Additional information**

**Extenuating circumstances**
If your education has been significantly disrupted through health or personal problems, disability or specific difficulties within your studies, you can submit an extenuating circumstances form as part of your application.

The information provided will be treated confidentially and will help us to assess your academic performance fairly considering your circumstances.

**Academic Technology Approval Scheme (ATAS)**
An ATAS certificate is not required for this programme.

**Visa**
International students coming to the UK to study full-time may need to apply for a student visa. Tier 4 student visa guidance notes are available on the University website.

**Fees and Deposits**

**Fees**
Annual tuition fee for 2020/21 if available on the relevant prospectus entry for this programme.

**Deposits**
Deposits are not required for this programme.

**Sponsored Students**
Sponsored students will need to upload a copy of their sponsorship letter using the ‘Post Submission Uploads‘ section of the online application.
