Postgraduate Admissions Statement for

PhD Mathematics

This Admissions Statement applies to applications submitted for entry to the programme between 1 October 2021 and 30 September 2022

It should be read in association with the University Admissions Principles and Procedures for Postgraduate programmes, the relevant prospectus entry and general application guidance.

Admissions criteria

Academic and English language requirements
The academic and English language requirements for this programme are displayed on the Postgraduate Prospectus. For information on international equivalent qualifications, please refer to our International Office website.

Non-standard applications
We welcome applications from those with non-standard qualifications who can demonstrate knowledge, experience and skills developed in the workplace, or elsewhere, relevant to the programme of study. Please use your personal statement to provide further details. Non-standard applications will be considered by the Admissions Tutor(s) for the programme on a case by case basis.

Application process

Online application form
Applicants should complete the online application form, uploading all required documents directly. Further information is available on our guidance for online applications page.

Applications will not be considered until all required documents have been uploaded.

Required and optional documents

✓ References
We require two academic references. References should comply with our standard requirements outlined on our guidance pages.

✓ Degree certificate(s) and academic transcripts
From first and subsequent degrees. Degree certificates and transcripts should comply with our standard requirements outlined on our guidance pages.

✓ Personal statement
Personal statements should highlight the motivation for applying for the course, and any relevant experience and/or skills.

✓ English language certificates/other evidence
Evidence of meeting the English language profile as stated on the Postgraduate Prospectus and specified by the University English Language Requirements Policy.

✓ Curriculum Vitae (CV)
CVs might include details of other relevant work experience and qualifications to support an application.

✓ Research Statement
The primary requirement for the research statement is to define and situate your research within an academic/disciplinary context. If you do not have a specific research project in mind please indicate your general area of interest in research and the academics you are interested in.
Other

Applicants are welcome to provide details of any relevant qualifications or training to assist with their application, or an example of their written work such as a research project or dissertation.

Selection process

Assessment of applications

All applicants are considered in line with the University’s Admissions Principles and Procedures Policy. Once a complete application has been submitted with all required supporting documents, it is considered by at least two members of staff using the following criteria:

- Performance in undergraduate degree
- Academic history and relevance of degree
- Degree content and performance in key modules
- English language ability (where applicable)
- References
- Personal statement
- Performance at interview

Interviews

Interviews form part of the selection process. The purpose of the interview is to assess whether the applicant has the necessary skills and capabilities to pursue the chosen postgraduate programme, and whether the programme is appropriate to the applicant’s interests and aspirations.

If required, interviewees based overseas will normally be interviewed by telephone or online video conference.

Decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. If there is a deadline by which applicants must accept an offer of admission or pay a deposit, this will be stated in the offer letter.

Offers

Offers will typically be made in line with the academic requirements set out above. Offers made may be conditional or unconditional. An unconditional offer will be made to applicants who have already met the conditions and provided evidence that conditions have been met. Where academic or language requirements have not yet been fulfilled, applicants will receive a conditional offer outlining the requirements that must be met.

Deferrals

This programme does not normally allow deferrals unless there are exceptional circumstances. Please contact maths-postgraduate@bristol.ac.uk if you would like to discuss the possibility of deferring your start date.

Additional information

Extenuating circumstances
If your education has been significantly disrupted through health or personal problems, disability or specific difficulties within your studies, you can submit an extenuating circumstances form as part of your application.

The information provided will be treated confidentially and will help us to assess your academic performance fairly considering your circumstances.

**Academic Technology Approval Scheme (ATAS)**

International students and researchers (apart from exempt nationalities) who are subject to UK immigration control will be required to apply for an Academic Technology Approval Scheme (ATAS) certificate to study this programme. For further details see [www.gov.uk/guidance/academic-technology-approval-scheme](http://www.gov.uk/guidance/academic-technology-approval-scheme)

**Visa**

International students coming to the UK to study full-time may need to apply for a student visa. Guidance is available on the [University website](http://www.universitywebsite.com).
