Our goals

To develop your capabilities

To nurture your talents

To train the medical detectives of the future

To create an environment that celebrates diversity and learning
# Bristol Medical School 1897

Faculty student advisors

Academic mentor (personal tutor)

Senior tutors
Peer support

The colleges are a friendly and supportive community of students and staff, each one a close network that you can turn to for both academic and non-academic concerns, promoting your wellbeing and giving you a strong sense of belonging.

The colleges run talks and activities throughout the year, including fundraising and mental health awareness events, pizza and curry nights, and yoga and group runs.

They have a team of trained student peer supporters called welfare reps, who offer a confidential, friendly and non-judgmental listening ear.

The Medical parent scheme.
Student society

Galenicals is the University of Bristol's Medical Student Society representing nearly 1,500 students, providing for both academic and extra-curricular interests.
