Postgraduate Admissions Statement for

PhD Robotics and Autonomous Systems

This Admissions Statement applies to applications submitted for entry to the programme between 1 October 2020 and 30 September 2021.

It should be read in association with the <u>University Admissions Principles and Procedures</u> for Postgraduate programmes, the relevant <u>prospectus entry</u> and general <u>application guidance</u>.

Admissions criteria	
Academic and English language requirements	The academic and English language requirements for this programme are displayed on the <u>Postgraduate Prospectus</u>
	For information on international equivalent qualifications, please refer to our <u>International Office website</u> .
Non-standard applications	We welcome applications from those with non-standard qualifications who can demonstrate knowledge, experience and skills developed in the workplace, or elsewhere, relevant to the programme of study. Please use your personal statement to provide further details.
	Non-standard applications will be considered by the Admissions Tutor(s) for the programme on a case by case basis.

Application process

Online application form

Applicants should complete the online application form, uploading all required documents directly. Further information is available on our guidance for online applications page

Applications will not be considered until **all** required documents have been uploaded.

Require	d and optional documents	
√	References	We require two academic references. References should comply with our standard requirements outlined on <u>our guidance pages</u> .
√	Degree certificate(s) and academic transcripts	From first and subsequent degrees. Degree certificates and transcripts should comply with our standard requirements outlined on <u>our guidance pages</u> .
√	Personal statement	Personal statements should highlight the motivation for applying for the course, and any relevant experience and/or skills.
√	English language certificates/other evidence	Evidence of meeting the English language profile as stated on the <u>Postgraduate Prospectus</u> and specified by the <u>University English</u> <u>Language Requirements Policy</u>
√	Curriculum Vitae (CV)	CVs might include details of other relevant work experience and qualifications to support an application.
	Research Statement:	The primary requirement for the research statement is to define and situate your research within an academic/disciplinary context. You should remember that people in the academic

Distance Learning supporting letter	For the distance learning option only, applicants are also required to submit a supporting letter from any institution/organisation
Distance Learning	For the distance learning option only, applicants are also required
Research Training Statement	Applicants are welcome to provide details of any relevant qualifications or training required to assist with their application.
	3.The methods you think you will use to pursue the key questions.
	2. The research context for your project/programme of work;
	1.The research questions or problems that you intend to address;
	postgraduate research. This means that you will need to identify:

Selection process

Assessment of applications

All applicants are considered in line with the University's <u>Admissions Principles and Procedures Policy</u>. Once a complete application has been submitted with all required supporting documents, it is considered by at least two members of the FARSCOPE Management Team.

Interviews

Interviews form part of the selection process.

Suitable applicants are interviewed at the Bristol Robotics Laboratory by at least two members of the FARSCOPE Centre for Doctoral Training management team.

Interviews focus on the applicant's motivation for robotics and multidisciplinary research, academic background, and breadth of interest within the field of robotics and autonomous systems. Applicants attending for interview receive a tour of the laboratory and have the chance to meet current students.

Interviews are used to assess whether the applicant has the necessary skills and capabilities to pursue their chosen programme, and whether the programme is appropriate to their interests and aspirations.

Interviewees based overseas are usually interviewed by telephone or Skype.

Interviews are normally conducted by two members of staff, at least one of whom is trained in fair and effective recruitment techniques.

Decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. If there is a deadline by which applicants must accept an offer of admission or pay a deposit, this will be stated in the offer letter.

Offers

Offers will typically be made in line with the academic requirements set out above.

Offers made may be conditional or unconditional. An unconditional offer will be made to applicants who have already met the conditions and provided evidence that conditions have been met. Where academic or language requirements have not yet been fulfilled, applicants will receive a conditional offer outlining the requirements that must be met.

If an applicant is not selected to receive an offer for the course to which they have originally applied, we may offer the opportunity to be considered for an alternative programme in a related subject area. In such cases applicants will receive an email notification providing any alternative course options and asking whether they wish to be considered for these. It may be necessary for applicants to submit additional documentation in order for the application to be fully considered for an alternative programme. Details of the documentation required can be found in the admissions statement for the relevant programme.

Results deadline

Applicants who receive a conditional offer will be required to submit all final results to meet their offer conditions by July. Offer holders who will be unable to provide their final results by this date should email farscope-cdt@bristol.ac.uk to notify the admissions team as soon as possible.

Deferrals

This programme does not normally allow deferrals unless there are exceptional circumstances. Please contact farscope-cdt@bristol.ac.uk if you would like to discuss the possibility of deferring your start date.

Additional information

Extenuating circumstances

If your education has been significantly disrupted through health or personal problems, disability or specific difficulties within your studies, you can submit an <u>extenuating circumstances</u> form as part of your application.

The information provided will be treated confidentially and will help us to assess your academic performance fairly considering your circumstances.

Academic Technology Approval Scheme (ATAS)

An ATAS certificate is not required for this programme.

Visa

International students coming to the UK to study full-time may need to apply for a student visa. <u>Tier 4 student visa guidance notes</u> are available on the University website.

Fees and Deposits

Fees

Annual tuition fee are available on the relevant prospectus entry for this programme.

Deposits

Deposits are not required for this programme.

Sponsored Students

Sponsored students will need to upload a copy of their sponsorship letter using the 'Post Submission Uploads' section of the online application.
