Giving Circles at the University of Bristol

The University of Bristol was built on the extraordinary support and philanthropic gifts of our founding benefactors. Today and in recent years, your generosity continues this legacy of philanthropy, which helps to shape and support Bristol’s ambitions for the future.

You are part of an inspirational community of philanthropists who are enabling ground-breaking research, solving global challenges and enriching lives.

Complementing our widely supported Bristol Pioneers programme, our Giving Circles are a lasting record of those individuals, charitable trusts, foundations and companies who have made exceptional gifts to the University. These Giving Circles enable us to recognise and celebrate your support.
The Sir Winston Churchill Philanthropic Circle

For donors who have committed over £5 million to the University

Sir Winston Churchill, our longest serving Chancellor (1929-1965), Nobel Laureate (Literature 1953) and Prime Minister, lends his name to our most prestigious Giving Circle. He understood our ambition to make a better life for the world in which we live. We are pleased to recognise those whose landmark gifts will be crucial in realising our bold ambition for the future.

‘We make a living by what we get, we make a life by what we give.’

——— Sir Winston Churchill

The Dorothy Hodgkin Circle of Discovery

For donors who have committed £1 million to £4,999,999 to the University

Our University is at an extraordinary point in its history, and we will continue to work with and recognise those leading benefactors who share our vision for discovery and our passion for learning, in the manner of Dorothy Hodgkin, Chancellor (1971-1988) and Nobel Laureate (Chemistry 1964).

‘There are two moments that are important. There’s the moment when you know you can find the answers and that’s the period you are sleepless. When you’ve got it and know what it is, then you can rest easy.’

Philanthropy will increasingly be a critical determinant of Bristol’s success, allowing us to support students, recruit world-class staff and fund research in a way that would be impossible if we had to rely solely on fee income and government support.
