

PI	Title	Date Requested	Amount
Thomas Gorochowski	Open-source algal micro-farms for sustainable bioproduction	October 2020	£47,013.00
Keith Edwards / Alan Stealey	Research into the Yet Unknown Cider Making Qualities of Apples Bred at the Long Ashton Research Station	October 2020	£14,370.75
Rox Middleton	Why are Blueberries Blue? 3 months COVID extension	October 2020	£4,655.38
Tommaso Jucker	Using Remote Sensing to Guide Precision Forestry in Europe	October 2020	£35,875
Tom Pitman	Funding to Replace Current LED Lighting in the GroDome	October 2020	£9,466.07
Sinead English / Richard Wall / Kwasi Asante	Integrated pest management of cowpea weevils using innovative neem applications	June 2020	£11,745
Jill Harrison / Zoe Nemeč Venza	The Regulation of plant stem cell function by CLAVATA	June 2020	£23,464
Rose Crichton / Christopher Cammies	A pioneer study analysing nematode assemblages in a functional and profitable aquaponics system	March 2020	£9,774
Tom Oliver	Investigating non-photochemical quenching of iridoplasts	March 2020	£19,979
Heather Whitney / Carmen Galan	Development of a collaborative network to test and optimise a novel technology	March 2020	£39,597

Imogen Sparkes	Next generation confocal imaging system	March 2020	£62,000
Tommaso Jucker	Building a remote sensing laboratory for plant and agricultural sciences at the University of Bristol	March 2020	£19,140
Jane Memmott	Pesticide Free Guernsey	March 2020	£39,736
Imogen Sparkes	Re-engineering Golgi dynamics in plants	March 2020	£51,60
