

PI	Title	Date Requested	Amount
Gary Foster	BCAI Network Team	October 2019	£50,410
Kerry Franklin	Understanding the transcriptional regulation of PIF transcription factors by environmental signals	October 2019	£21,727
Sean Rands	Floral thermal biology in a changing environment	October 2019	£22,569
Gary Barker	Equipment for BBSRC Follow on Funding on a core collection of wheat markers	October 2019	£20,616
Tim Caro	Intercations between Clove Production, Species Diversity in Clove Pots and Biodiversity	October 2019	£9814
Tom Pitman / Anthony Crawford	Horticultural Staffing levels in Greenhouse facilities	October 2019	£45,283
Lucia Primavesi	Equipment matters - the key to a good experiment	July 2019	£2556
Lucia Primavesi	Getting the most out of chlorophyll	July 2019	£1989.21
Gilda Varliero	Exploring new sequencing technology for agricultural research	July 2019	£24,974
Jane Memmott	Pollination in Nepal in a changing climate	July 2019	

Keith Edwards / Gary Barker / Helen Harper	Assessing the diversity of UK apples with the Bristol set of single nucleotide Polymorphic markers	April 2019	£14,660
Ulrike Bauer / Helen Harper	Interdisciplinary Plant Wax Research Workshop	April 2019	£1486.80
Jill Harrison / Ken Birnbaum	FASEB Mechanisms in Pplant development meeting 2019	April 2019	£2560
Jill Harrison / Keith Edwards / Sophie Carpenter	Intercepting CLAVATA function to engineer larger ears in wheat	April 2019	£19,926.92
Rox Middleton	Why are blueberries blue?	April 2019	£17,165
Dr Helen Harper	Raising the profile of BCAl: annual budget for publicity material and workshops	Januray 2019	£5,000
Mr Tom Swift	The optimisation and field trials of carbon dots to enhance yields for a diverse range of crop in partnership with Beanstalk Agritech	January 2019	£23,411
Dr Lucia Primavesi	Updating and streamlining small autoclave equipment in Plant Sciences	January 2019	£3,417.99
Dr Sally Hobson / Miss Maggie Gamble	Replacement of Validated Waste Autoclave	January 2019	£15,546.60
