

T1D-DAB

The Diversity of Type 1 Diabetes across Bristol Study

Study Participation Survey

Once again, thank you so much for your interest in the T1D-DAB study. We are looking to improve the participants' experience. Please take a moment to answer the survey questions below.

Why have I been contacted?

We are contacting people who have taken part in T1D-DAB or have shown an interest in the study but have not decided to take part.

We want to find out:

- What first interested them in taking part in T1D-DAB
- How was their experience of being a part of the study?
- Or why they decided not to take part in the study.

This information will help us to improve the T1D-DAB study and design future Type 1 Diabetes studies.

What am I being asked to do?

We would be grateful if you could complete a short anonymous survey about your decision. This survey should take less than 10 minutes to complete.

Survey questions:

1. How did you hear about the T1D-DAB study?

Please tick all that apply:

Social Media ☐ Study website ☐ Through a friend or family member ☐
GP ☐ Diabetes Clinic/Doctor ☐ Advertisement in the community ☐

Other (please describe)
