

October 2023

Dear School Colleagues,

A member of your school community has been invited to an online interview with the University of Bristol, for entry to the University commencing in September 2024.

We know that for many of our applicants and interviewees, access to suitable ICT equipment, reliable internet connections, and an environment where candidates can focus is not possible at home.

We therefore kindly request that your school or college can provide the conditions that will give your student the very best chances of success at interview, should they require it.

Your support to consider the following provision for your student would be appreciated:

- Access to a school laptop or desktop PC, to include an integrated or peripheral webcam, plus microphone and speakers (or headset).
- Access to a stable school internet connection, either wired or WiFi, minimum 1.5 Mbps upload/download speed.
- Access to a quiet room or space, free from interruptions or distractions.

We would greatly appreciate and welcome the support of any or all of the above to suit the particular needs of your students.

Yours sincerely,

University of Bristol Admissions
