

Undergraduate Admissions Statement

This statement should be read in conjunction with the University's Admissions Principles and Procedures:

<http://www.bristol.ac.uk/study/undergraduate/after-you-apply/policies/2022>

Year of Admissions cycle:
2022

Courses covered:

A108 Gateway to Medicine (MB ChB)

A208 Gateway to Dentistry (BDS)

D108 Gateway to Veterinary Science (BVSc)

1. Course specific information:

1.1 Eligibility criteria

Please note that the Gateway programme is a University of Bristol widening participation initiative open to applicants from specific state schools and colleges in England and Wales, Northern Ireland and Scotland OR to applicants who have spent time in care only.

These selected schools and colleges are those with a lower progression to Higher Education and/or a lower average attainment in A-levels, International Baccalaureate, Pre-U or other Level 3 qualifications as appropriate.

To be eligible, applicants for the Gateway programme must be attending (or, if they are applying with completed qualifications, have attended in the academic year immediately prior to their application) a secondary school or college on one of the school lists accessible via the links given below.

Or applicants must have spent time in care. If this applies to you, please tick the box in the care questions on your UCAS application. If your reference confirms that you have spent time in local authority care, our admissions team will process your application. If not, we may ask you to send us some more information, such as an email or letter from your local authority, school/college or other organisation.

Graduates, and those who have already commenced any University-level course, including a Foundation course, are not eligible to apply for the Gateway courses regardless of their previous A-level grades or school attended.

Applicants liable for international tuition fees are not eligible for the Gateway programme, regardless of school or college attended.

Please ensure you check the Aspiring School/College list for the year you completed your A levels or equivalent Level 3 qualification. Please note that there is no eligibility for Gateway using the Polar score for home postcode.

England and Wales 2020/21 or 2021/22 'Aspiring Schools'

<http://www.bristol.ac.uk/media-library/sites/study/documents/Aspiring%20State%20Schools%20and%20Colleges%20for%202022%20Cycle%20England%20and%20Wales.pdf>

Northern Ireland 2020/21 or 2021/22

Level 3 completed in either academic year:

<http://www.bristol.ac.uk/media-library/sites/study/documents/Aspiring%20State%20Schools%20and%20Colleges%20for%202022%20cycle%20Northern%20Ireland.pdf>

Scotland 2020/21 or 2021/22

Level 3 completed in either academic year:

<http://www.bristol.ac.uk/media-library/sites/study/documents/Aspiring%20State%20Schools%20and%20Colleges%20for%202022%20cycle%20Scotland.pdf>

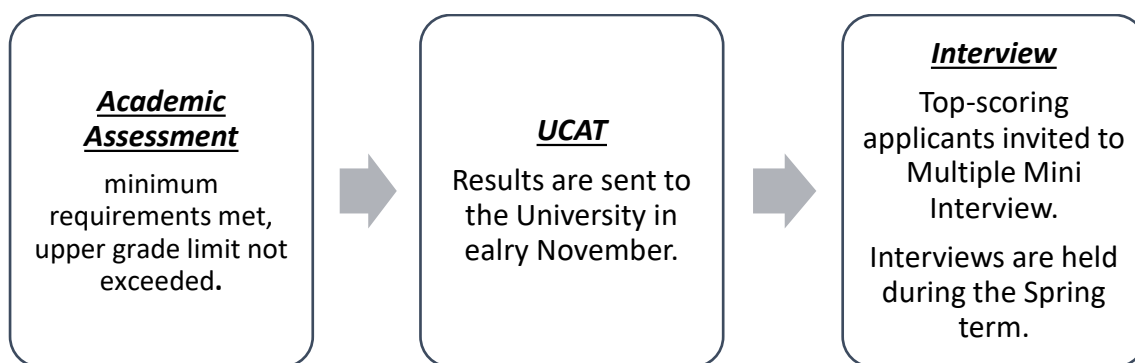

1.2 Admissions process

Eligible applications are initially assessed on their academic record, according to their achieved or predicted results.

As we do not weight A-levels or GCSEs (or equivalent qualifications), applicants who are predicted to, or have already achieved our minimum academic entry requirements (while not exceeding the specific upper grade limits set for the Gateway programme) will then have their applications scored as follows.

All applicants who have passed the academic scoring will be ranked solely according to their UCAT score. This ranking will be used to determine which applicants are called for interview.

This ranking will not incorporate any aspect of an applicant's academic profile unless a differentiation needs to be made between identically scoring applicants.

1.3 Academic criteria

Academic entry requirements for standard qualifications (A-level, SQA, IB, Access, BTEC, Welsh Bac, GCSEs) can be found in the undergraduate course finder:

<http://www.bristol.ac.uk/study/undergraduate/search/>

If an applicant has achieved or is predicted to achieve *above or below* the A-level (or equivalent) grade ranges as stated on the relevant online course page on the University's website, they will not be eligible for the Gateway programme, regardless of the type of school or college attended or if they have spent time in care. It is the applicant's responsibility to ensure that the person providing any predicted grades is aware of this. No later revision of predicted grades will be permitted.

Please note that applicants will not be considered for both the Gateway programme and a five-year course in Medicine, Dentistry or Veterinary Science at Bristol, or for more than one Gateway programme. It is the applicant's responsibility to ensure that they apply for the course most appropriate to their educational circumstances and academic profile. If an applicant applies for the Gateway course but is eligible for the relevant five-year programme the admissions team will update their course accordingly and they will be considered for the five-year course.

Applicants who are applying from an eligible school or college or who have spent time in care (see 1.1 above), and who fulfil the academic requirements in full, and whose application is received on time (in accordance with the published UCAS October deadline for Medicine, Dentistry and Veterinary courses) will receive equal consideration.

1.4 Additional Criteria

UCAT

All applicants are required to take the University Clinical Aptitude Test (UCAT) in the current cycle. Details of the test, and the deadlines for application/test, can be found online at: <https://www.ucat.ac.uk/>

The combined score from all subtests, with the exception of Situational Judgement, will be used to select applicants for interview. The score used as a threshold for interview is subject to change year-on-year depending on the strength of the cohort, therefore a specific score cannot be used with certainty to predict the likelihood of receiving an invite to interview for the current cycle.

We strongly advise candidates to take the test as early as possible as the ongoing impact of COVID-19 may result in additional local or national restrictions affecting access to test centres. If these occur, then Pearson test centres will have to reschedule candidates and/or advise them to test at home. The best way of avoiding this is to take the test early.

The University of Bristol will treat all test scores equally when assessing applications. If any problems occur when taking the test, you must contact Pearson (UCAT) directly. Applicants sitting the UCATSEN are no longer required to provide the University with evidence of their eligibility. This must be submitted directly to UCAT. Further information can be found on the UCAT website: <https://www.ucat.ac.uk/register/access-arrangements/>

UCAT operates a bursary scheme allowing some applicants to sit the UCAT for free which some applicants may be eligible for. Details of this can be found on the UCAT website: <https://www.ucat.ac.uk/register/bursary-scheme/>

Criminal records check

A DBS (Disclosure and Barring Service) check will be required for all successful applicants to Gateway to Dentistry and Gateway to Medicine. This process begins in August prior to registration. This is not required for applicants to Gateway to Veterinary Science.

Occupational Health Clearance

Applicants who are made an offer for a place on any of the Gateway courses and make it their firm choice will be required to complete an Occupational Health questionnaire. All offers are subject to satisfactory occupational health clearance.

All offers are also subject to satisfactory checks against the MSC Excluded Students Database. These checks will be completed in August of the application cycle for applicants who are holding unconditional firm offers for entry in the coming intake. Any applicant who has previously been required to withdraw from a medical course elsewhere and is identified

as an excluded student may not be allowed to register on their course of study at Bristol. The Faculty of Health Sciences will consider whether to allow registration on a case-by-case basis.

All checks must be completed satisfactorily for an applicant to register as a student on these courses.

Work Experience

All applicants, regardless of intended pathway, should have some practical work experience in their chosen career field in order to develop their understanding of the profession, show their commitment to the course and career, and as a basis for questions at interview. This does not necessarily have to include clinical experience (ie hospital, GP or animal clinic based) and can include work placements undertaken as part of a relevant course or as independent voluntary work. There is no minimum number of hours or weeks required, although undertaking at least five days is recommended.

We are aware that many applicants will have been unable to undertake work experience during the coronavirus crisis. Please be assured that we will be taking the situation into account and you will not be penalised should your ability to gain relevant work experience have been adversely affected. We encourage applicants to seek opportunities to develop their awareness of their chosen career, and the skills and attributes required of such roles through means such as online research, supporting their families and communities, etc.

Personal Statement

We no longer use the personal statement as a weighted component of our selection criteria. Should we need to differentiate between applicants who have identical scores at interview when making offers, UCAT scores will be used as our primary differentiator. Should there be a situation where applicants achieve the same interview result and UCAT score, only then will the personal statement be used as a deciding factor. In these cases, we use the following criteria:

- Evidence of commitment to and realistic interest in career/reflection on work experience
- Evidence of life skills/problem solving/leadership/communication skills/organisational skills; proven leadership ability; time management
- Evidence of altruism/volunteering/ 'helping others', experience in caring roles, community/school involvement.

1.5 Interviews

Interviews will form part of the selection criteria for the 2022 admissions cycle. We appreciate, however, that there still may be an ongoing impact of COVID-19 which could result in additional local or national restrictions to travel. If these occur, then we may need to alter the format of interviews and/or change arrangements at short notice. We hope to run the interviews in-person, and we will keep applicants informed if we need to make any changes. If we decide it is necessary for them to take place remotely, we will ensure these interviews accurately reflect the normal interview process. Any changes to the format due to the remote nature of the interview will not disadvantage applicants in any way.

All applicants who are selected for interview must attend in order to be considered for an offer. No offers are made without the applicant first attending an interview, unless there are exceptional circumstances involved. This does not mean that we interview all applicants. We do not consider previous interview performance for those applicants who were interviewed in a previous cycle.

The purpose of the interview is to provide the applicant with an opportunity to demonstrate evidence of skills and attributes that are appropriate to the career in medicine, dentistry or veterinary science as appropriate and to display insight into a range of topics related to their chosen career. Photo identification will be required at interview

Applicants invited to interview will also be given an opportunity to see relevant academic departments and the main campus or the Langford campus as appropriate. More information specific to each Gateway pathway can be found on our website:

<https://www.bristol.ac.uk/study/undergraduate/after-you-apply/interviews/>

Applicants' performance at interview is scored by assessors and ranked by the Admissions office. Those applicants with the strongest overall performance receive offers. We aim to make offers as soon as possible, but to ensure fairness, applicants may not receive a decision until all the interviews have been completed. The UCAT score is our primary differentiator for distinguishing between applicants with identical interview scores.

1.6 Mature applicants

We welcome mature applicants, and assess such applications holistically, taking into account factors such as relevant work experience and personal circumstances that may have interrupted or prevented previous degree level study. Applicants will still need to meet the eligibility criteria in section 1.1.

Please note that graduates, or those who have already commenced any course of University study, are not eligible to apply for the Gateway courses. We do not accept Access to HE qualifications for entry to the Gateway programme.

1.7 Offers

Due to the competitive nature of these courses, we can only consider applicants who meet the specific eligibility and grade criteria for this programme.

If applicants are not eligible or not qualified or have an unsuitable academic background for the course to which they originally applied, we may offer the opportunity to be considered for an alternative course in a related subject area. In such cases applicants will receive an email notification providing a list of the alternative options.

1.8 Deferred applications

Deferred applications (ie applying in 2021/22 for 2023 entry) are not accepted for this course.

1.9 Resits

We will consider applicants who are completing resits of GCSEs and/or A-levels (or equivalent level 3 qualifications), however they must be enrolled at an eligible school or college for the academic year in which they are retaking any exams or meet the in-care requirements.

1.10 Transfers

This is a one-year programme where successful completion allows applicants to transfer to year one of the appropriate five-year course at the University of Bristol only. Transfers into a mid-point in the Gateway year are not permitted.

2. General information

2.1 Admissions team

Applications are assessed by a centralised team in close co-operation with the School Recruitment and Admissions Officer(s). The team have received training in fair admissions and unconscious bias.

2.2 Admissions process

Because we receive such a high number of applications, and to ensure that all those applying on time are treated fairly, we may hold some applications until May before making a decision.

Applications received before the 15 October deadline set by UCAS are guaranteed equal consideration.

We do not discriminate against applicants on the grounds of age, disability, gender reassignment, marriage or civil partnerships, pregnancy and maternity, race, religion or belief, sex, or sexual orientation.

To assess an application, we require the following information:

- a full academic history from age 16 onwards, including details of any retakes or uncompleted qualifications;
- predicted grades for any qualifications the applicant is currently taking. These must be provided by the applicant's school or referee, and must include an overall grade (if applicable), *and*, where a particular subject is specified in the entry requirements, the achieved or predicted grades for that subject, and any related or major subjects being studied;
- in cases where predicted grades are not available, a transcript showing the results of a previous year's courses or examinations.

We assess applicants on the basis of their application only; we do not take into account any additional information received from an applicant or institution, unless we have requested it.

Academic references should be provided by a personal tutor from the applicant's school or college. Where this is not possible, a non-academic reference should confirm the applicant's relevant experience and indicate their potential for degree-level study.

The reference is considered alongside the personal statement, where applicable, taking into account the following:

- predictions of examination results (including, if necessary, an explanation of any non-standard qualifications);
- an overall assessment of the applicant, in particular the suitability and academic potential of the applicant to study at degree level;
- discussion of earlier exam results, especially those influenced by personal or medical circumstances (and therefore a poor guide to ability);
- discussion of the applicant's intellectual curiosity, interests and suitability for the subject.

Referees who believe the applicant's performance does not reflect their ability, because of educational context and/or special circumstances, should advise the applicant to complete an extenuating circumstances form (see section 2.6 Extenuating Circumstances).

2.3 Correspondence with applicants

All correspondence relating to an applicant's status will be sent by email.

We monitor the number of offers we make carefully and may hold some applications until later in the cycle.

Applicants will be notified if their application has been successful or unsuccessful, or to inform them that their application has been assessed and put on 'Hold' pending a decision later in the cycle.

For applications that are submitted by 15 October, the final deadline by which applicants will receive a decision is the May deadline set by UCAS. Most decisions are made before this date.

2.4 English language requirements

All applicants are required to demonstrate that they have sufficient ability to understand and express themselves in both spoken and written English in order to benefit fully from their degree course.

English Language requirements for each course can be found in the undergraduate course finder and are explained on our English Language web page:

<http://www.bristol.ac.uk/study/language-requirements/>

2.5 Contextual information

The Gateway program is a widening participation initiative established as part of our commitment to the UK national agenda on widening University participation.

To be eligible to apply for the Gateway program, applicants must have attended a school or college on the relevant lists of schools and colleges or spent time in care as explained in section 1.1 above.

Please note that eligibility is not established using Polar Score.

Please note that we use the school code entered on the education history section on the UCAS application to determine an applicant's eligibility. It is the applicant's responsibility to ensure this is correct. Applicants still at school should apply to UCAS through their school portal. Applicants who are no longer at school (i.e., on a gap year) should where possible ask to apply through their previous school to avoid any confusion regarding their eligibility. Full details of the contextual offer scheme can be found here:

<https://www.bristol.ac.uk/study/undergraduate/entry-requirements-qualifications/contextual-offers/> and within the University's Admissions Principles and Procedures for Undergraduate Courses.

2.6 Extenuating circumstances

If an applicant's education has been significantly disrupted through health or personal problems, disability or specific difficulties with schooling they will need to submit an extenuating circumstances form to Undergraduate Admissions:

<http://www.bristol.ac.uk/study/undergraduate/after-you-apply/your-application/extenuating-circumstances/>

The information provided on the form will be treated confidentially, and will help us to assess fairly academic performance in light of the situation.

2.7 Policies

All applications are considered in line with our Admissions principles and procedures:

<https://www.bristol.ac.uk/study/undergraduate/after-you-apply/policies/>

We are committed to the implementation of high quality, fair and transparent admissions procedures for all our applicants. We recognise, however, that there may be occasions when applicants believe that they have cause for complaint. At this point applicants should follow our Applicant feedback and complaints procedures.

Should an applicant believe that University Admissions principles and procedures have been inconsistently or incorrectly applied, these complaints procedures provide a mechanism for objective review.

2.8 Results

The University can only guarantee places if the exact terms of the offer are met; however, offer holders will not automatically be unsuccessful if the terms of the offer are narrowly missed.

If offer holders do not meet the terms of their offers when exam results are released they may be considered as 'near miss candidates'. All near miss candidates are reviewed in August after publication of A-level results. International offer holders may be reconsidered earlier depending when their exam results are released.

Please see our results web page for further information: <http://www.bristol.ac.uk/results/>

2.9 Contacts for enquiries

Any enquiries should be addressed to our Enquiries team: choosebristol-ug@bristol.ac.uk or +44 (0)117 394 1649.
