

Postgraduate Admissions Statement for

PhD Molecular, Genetic and Lifecourse Epidemiology (Wellcome Trust)

This Admissions Statement applies to applications submitted for entry to the programme between 1 October 2020 and 30 September 2021.

It should be read in association with the [University Admissions Principles and Procedures](#) for Postgraduate programmes, the relevant [prospectus entry](#) and general [application guidance](#).

Admissions criteria

Academic and English language requirements	The academic and English language requirements for this programme are displayed on the Postgraduate Prospectus For information on international equivalent qualifications, please refer to our International Office website .
Non-standard applications	We welcome applications from those with non-standard qualifications who can demonstrate knowledge, experience and skills developed in the workplace, or elsewhere, relevant to the programme of study. Please use your personal statement to provide further details. Non-standard applications will be considered by the Admissions Tutor(s) for the programme on a case by case basis.

Application process

Online application form

Applicants should complete the online application form, uploading all required documents directly. Further information is available on our [guidance for online applications page](#)

Applications will not be considered until **all** required documents have been uploaded.

Required and optional documents

✓	References	We require two academic references. References should comply with our standard requirements outlined on our guidance pages .
✓	Degree certificate(s) and academic transcripts	From first and subsequent degrees. Degree certificates and transcripts should comply with our standard requirements outlined on our guidance pages .
✓	Personal statement	Personal statements should highlight the motivation for applying for the course, and any relevant experience and/or skills.
✓	English language certificates/other evidence	Evidence of meeting the English language profile as stated on the Postgraduate Prospectus and specified by the University English Language Requirements Policy
✓	Curriculum Vitae (CV)	CVs might include details of other relevant work experience and qualifications to support an application.
✓	Research Statement:	You should write a research proposal that defines and situate your research within an academic/disciplinary context. You should remember that people in the academic community are the primary

		<p>audience/readership for postgraduate research. This means that you will need to identify:</p> <ol style="list-style-type: none"> 1.The research questions or problems that you intend to address; 2.The research context for your project/programme of work; 3.The methods you think you will use to pursue the key questions.
✓	A covering letter	A covering letter stating clearly that you are applying for the Wellcome Trust four-year PhD programme in Molecular, Genetic and Lifecourse Epidemiology. The letter should include a personal statement (maximum 250 words) about your career aspirations.
Optional Documents		
	Additional references	You are welcome to upload additional references, such as professional references from work experience in a related field and/or industrial placements, to further support your application.
	Research Training Statement	Applicants are welcome to provide details of any relevant qualifications or training required to assist with their application.

Selection process

Assessment of applications

All applicants are considered in line with the University's [Admissions Principles and Procedures Policy](#). Once a complete application has been submitted with all required supporting documents, it is considered by a selection panel (including programme directors) following the closing date. As we receive a large volume of high-quality applications for a small number of places, we typically shortlist applicants for interview according to their academic qualifications and the strength of their research proposal and personal statement.

Interviews

Interviews form part of the selection process for this programme and comprise a five-minute presentation from the applicant on their proposed research, followed by project-specific and generic questions from the panel.

The purpose of the interview is to assess whether the applicant has the necessary skills and capabilities to pursue the chosen postgraduate programme, and whether the programme is appropriate to the applicant's interests and aspirations.

Interviewees based overseas will normally be interviewed by video conference.

Decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. If there is a deadline by which applicants must accept an offer of admission or pay a deposit, this will be stated in the offer letter.

Offers

Offers will typically be made in line with the academic requirements set out above.

Offers made may be conditional or unconditional. An unconditional offer will be made to applicants who have already met the conditions and provided evidence that conditions have been met. Where academic or language requirements have not yet been fulfilled, applicants will receive a conditional offer outlining the requirements that must be met.

If an applicant is not selected to receive an offer for the course to which they have originally applied, we may offer the opportunity to be considered for an alternative programme in a related subject area. In such cases applicants will receive an email notification providing any alternative course options and asking whether they wish to be considered for these. It may be necessary for applicants to submit additional documentation in order for the application to be fully considered for an alternative programme. Details of the documentation required can be found in the admissions statement for the relevant programme.

Deferrals

This programme does not normally allow deferrals unless there are exceptional circumstances. Please contact brms-pgradmin@bristol.ac.uk if you would like to discuss the possibility of deferring your start date.

Additional information

Extenuating circumstances

If your education has been significantly disrupted through health or personal problems, disability or specific difficulties within your studies, you can submit an [extenuating circumstances](#) form as part of your application.

The information provided will be treated confidentially and will help us to assess your academic performance fairly considering your circumstances.

Academic Technology Approval Scheme (ATAS)

An ATAS certificate is not required for this programme.

Visa

International students coming to the UK to study full-time may need to apply for a student visa. [Tier 4 student visa guidance notes](#) are available on the University website.

Fees and Deposits

Fees

Annual tuition fees are available on the relevant [prospectus entry](#) for this programme.

Deposits

Deposits are not required for this programme.

Sponsored Students

Sponsored students are not required to pay the deposit but will need to upload a copy of their sponsorship letter using the 'Post Submission Uploads' section of the online application.
